MINIMUM WAGE ACT POSTPONED BY COMMITTEE

Labor Committee Commends Proposal to Name Commission

MAY NOT BE REVIVED

Finance Committees Visit Longview Hospital—Assembly Adjourns

Columbus, Feb. 8.—Both houses of the legislature adjourned at noon today to enable the speaker of the house and president pro tem of the senate to accompany members of the house and senate finance committee on a trip to Cincinnati to visit Longview hospital and be entertained by Cincinnatic civic organizations. The solons will reconvene Monday evening.

Six bills were passed by the house late yesterday, including one providing that municipalities condemning property for public improvements may assess up to 50 per cent of the cost of condemnation upon property in the district benefited, and one providing for nomination of school board members by petition only.

The senate labor committee, by a vote of 4 to 3, last evening killed the Burke minimum wage bill by indefinite postponement and by the same vote recommended adoption of the Burch resolution for appointment of a fact-finding commission to study the subject of minimum wages for women and minors and report to the next assembly. There is said to be little chance of reviving the Burke bill on the floor of the senate, and indications are that the Burch resolution will be adopted.

Burke charged the resolution was an attempt to "camouflage" and "a means adopted to kill the bill." He said "a man who has considerable influence in this senate" had said in the Deshler hotel a few nights ago that "the way to kill the Burke minimum wage bill is to pass the resolution." Burke did not name the man, however.

Those voting to indefinitely postpone Burke's bill and to recommend adoption of the Burch resolution were Burch of Akron, McCoy of Youngstown, Wenner of Ashtabula and Mrs. Loughead of Cincinnati. Opposing this action were Burke of Elyria, Bender of Cleveland and Adair of Wayne county.

Burch said he was not opposed to a living wage for women and minors and that he did not believe any member of the senate was, but that they did not now have sufficient facts upon which to base a minimum wage law. Senator Loughead, Cincinnati, one of the two women senators, made the motion to postpone indefinitely the minimum wage bill.

The house codes committee killed three bills affecting present divorce and marriage laws, including one to make divorce easier, another to make it more difficult to obtain a marriage license, and one to prohibit remarriage of persons within one year after divorce.

The house temperance committee recommended for passage the Gordon bill, providing for the insertion of the "padlock" clause of the Volstead act in the Ohio prohibition law.

The bill introduced in the legislature by Representative Herbert of Columbus, which would have reduced the time between sentence and execution of a condemned prisoner from 100 days to 30 days has been killed in the house committee on benevolent and penal institutions. The committee also killed a bill calling for rigid inspection of convents.

FIVE HURT IN BLAST.

Cleveland, Feb. 8.—Five men were injured, three seriously today, when a stick of dynamite exploded in the rear of the Collinwood junior high school. A laborer's pick struck a buried stick of dynamite the explosive let go, and five men were buried by the blast. Two thousand school children at classes in the building, marched out without disorder.

POILUS GIVE SWEETS TO CONQUERED CHILDREN

Nations may fly at each other's throats, but the average enlisted man, caring little about what he is fighting for, doesn't hold animosities long. Germany and France are as bitter enemies as ever, but this group of French poilus, in Essen, has bought up all the candy in town and is throwing it to the little German children, just as the American doughboys used to delight to do in Coblenz before they wound un "Der Wacht am Rhine."

Mystery Surrounds Dramatic Suicide Of Young Girl Who Quotes Shakespeare

New York, Feb. 8.—"The rest is silence."

Leaving this quotation from Hamlet scrawled on a bit of paper by her bed, together with a letter to a friend in London, Miss Marie Bloomfield, honor student at Barnard college here, killed herself by drinking poison.

Today her quotation is believed. For police and Barnard college authorities want to know why Miss Bloomfield, first in her classes, and leader in college activities, should have found "the times so out of joint" that death was the only solution.

The sole clues, except for the words Hamlet, to the mental state which influenced the pretty 18 year old girl from Columbus, Ohio, to drain a glass of cyanide of potassium were found in a note addressed to Mrs. Bruce Cummings, Earl's Terrace, London, describing "how much Barbellion's journal has affected my life," and a copy of Keats' "Ode to a nightingale."

Barbellion's Journal is a depressing account of the experiences of a man whose spirit wished to do much, but who was stayed from accomplishment by the knowledge that death would come in a year's time.

Miss Bloomfield was the first girl student to die in a Barnard dormitory.

Miss Bloomfield, who had left Willard Parker Hospital Saturday after three weeks treatment for measles, was found dead in bed by her private nurse and several of her class mates who became alarmed when she did not appear for supper.

On her door was a card.

"Asleep, please don't disturb—Marie Bloomfield," it read.

They entered an adjoining room and went through a communicating door. Failing in their efforts to arouse her, they summoned a physician, who at first pronounced her death from natural causes.

But after an examination by the deputy medical examiner it was pronounced suicide and the body was ordered to the morgue for an autopsy.

Miss Bloomfield had so far recovered from her illness that she was able to resume the second half of the term work and had attended classes apparently in good spirits on the day before her death.

The "Ode to a nightingale" was copied in pen and ink and contained the lines:

"I have been half in love with easeful death."

ELECTRICITY PROGRAM WILL COST MILLIONS

Additional Generating Facilities to Be Provided Within Year

COST 75 MILLIONS

Dayton Power and Light Involved in Large Consolidation

Cleveland, Feb. 8.—More than $75,000,000 will be spent in Ohio within the next three or four years for the building of additional facilities for the generation and distribution of electricity to meet the demands occasioned by business expansion and increased use in the homes, it was announced here today. The program is now under way, and a considerable part of the work will be done during the present year.

Practically every large city in Ohio will be affected by the plan, which involves establishment of an Ohio super-power zone system, which will link together most of the great electrical central generating stations of the state. Lack of water for condensation purposes in the electrical generating stations, particularly in the central portion of the state is becoming an extremely serious problem, and is one of the factors in the present program it was stated.

Before the end of the year electricity generated on the Ohio River will meet with electricity generated on the shore of Lake Erie by reason of the physical connection between the properties of the Cleveland Electric Illuminating company, the Northern Ohio Traction and Light company, and the American Gas and Electric company through its subsidiary, the Ohio Power Company. Work on this project is already under way.

Engineers are now considering the feasibility of hooking up the properties of the Union Gas and Electric company, at Cincinnati so that they could carry a current as far as Columbus. With this scheme is also involved the problem of linking together the Dayton Power and Light Company, which serves many towns in southwestern Ohio, and the Consolidated Light, Heat and Power company, of Huntington, W. Va., which serves cities in southeastern Ohio and West Verginia.

New generating stations will be built this year at many points, costing millions of dollars, and additional millions will be expended in the the building of this tension transmission lines. For the present maximum capacity of these will be 132,000 volts but in some instances this will be increased to 220,00 volts.

The program for this year means the expenditure of approximately $40,000,000 in the building of new generating plants at Zanesville, Steubenville, Cleveland, Windsor and Beach Bottom, W. Va., and the extension of the transmission lines.

Among the cities that will be benefitted by the program are Cleveland, Toledo, Cincinnati, Columbus, Dayton, Youngstown, Coshocton, Warren, Zanesville, Lima, Mansfield, Lorain, Elyria, Springfield, Canton, Alliance, Massillon and scores of smaller cities.

AUTO STRUCK BY TRAIN

Chicago, Feb. 8.—Mrs. James Fenress, wife of the president of the Chicago Tubing and Braiding company was instantly killed when her automobile was struck by a passenger train as she was returning home from a skating party.

"PIG WOMAN" TELLS NEW STORY IN HALL-MILLS MURDER CASE

New Brunswick, N. J., Feb. 8.—With Mrs. Frances Stevens Hall, widow of the murdered rector of the Protestant Episcopal Church of St. John the Evangelist upon shipboard bound for Italy for a year's seclusion, Mrs. Jane Gibson, the "pig woman" who claimed to be an eye witness of the killing of Rev. Dr. Hall and his choir singer, Mrs. James Mills, completely revised her story today.

Mrs. Gibson said that Mrs. Mills cried out after the shooting began, uttering the name of a woman and not the name of a man.

"She screamed, 'please, please, please,' " declared Mrs. Gibson, "calling the name of a woman. I can tell why Mrs. Mills throat was cut after she had been shot. That was to remove the marks of finger prints."

"Did some one choke her?" Mrs. Gibson was asked.

"Draw your own conclusion," replied the pig woman.

Mrs. Gibson was nervous and ill at ease. She said that she had been annoyed for some time by prowlers about her home.

"Gossip says that my life is in danger," added Mrs. Gibson. "Only the other day I found a man's glove in my barn and turned it over to the detectives. I am trying to sell my farm and if I am able to do so, I intend to leave. Once safely away I may spring a surprise in this case. I will tell the true story of the Hall-Mills murder as I know it. But I doubt if it would bring about conviction of persons whose names I might mention because of their prominence."

Mrs. Gibson maintains a watch dog to watch her home at night.

ATTORNEY ADMITS HE SENT LOVE NOTES TO CINEMA ACTRESS

Los Angeles, Feb. 8.—What were described in court as "love messages" George Edwin Joseph, New York attorney, admitted sending to Pauline Frederick, film star, after he had known her for one week, were a part of the record today in Judge Parker's court where Joseph is seeking to recover $36,000 for legal services and Miss Frederick has countered with a claim for $47,647 she alleged was due her.

Joseph testified he met Miss Frederick for the first time August 23, 1919, and on September 1, following which Joseph, on his way east, sent the following telegram from Winslow, Ariz., to Miss Frederick:

"Pauline, thou loved and lovely queen of all the land of might have been, thy gracious radiant smile illumines every weary mile."

Miss Frederick's attorney, Arthur Wright, read the telegram in court and then turned to Joseph and asked:

"Did you send that?"

"I did and I received a reply," said Joseph.

The witness followed this by producing the reply in the form of a telegram he said was from Miss Frederick. It read:

"I wish it could be answered in kind. My mother sends her best regards—Polly."

ITEM FOR HARBORS AND RIVERS STILL OCCUPIES SENATE

Washington, Feb. 8.—For the third successive day the senate devoted its entire session to discussion of the $56,000,000 rivers and harbors item in the annual army bill, but an agreement finally was reached for voting on all pending amendments this evening.

The debate covered a wide range of argument for and against waterway transportation and related topics, inicluding the constitutional right of the federal government to assume jurisdiction over intrastate lakes and streams for purposes other than that of insuring navigation. With few exceptions, every senator present was drawn into the debate.

Senator Borah, whose amendment reducing the item to $27,000,000, as recommended by the budget bureau, inaugurated the debate, declared that many projects provided for in the lump appropriation would not assist commerce "one penny" and were indefensible from any standpoint.

Senator Underwood, the Democratic leader, insisted that the government would be lax in its duty if it failed to provide for utilization of the "marvelous system of cheap transportation" lying within its borders.

TURKISH COAST IS BLOCKED BY ALLIED SHIPS

British, French, Italian and U. S. Ships Float In Turkish Waters

IGNORE TURK ORDER

America Will Take no Part In Dispute Although Vessels on Hand

Malta, Feb. 8—Increased activity by the mighty British fleet in Near East waters was reported tadny. There are more than forty British, French and Italian warships of various sizes in Turkish waters The Turkish coast is virtually under blockade.

The British Mediterranean- fleet and part of the Atlantic fleet is off the Turkish coast, The British ships are lying off Constantinople in the sea of Marmora, off Chanak in the Dardanelles, off Kum Kaleh at the entrance to Turkish straits, off Smyrna and a few are cruising farther south in the region of Adalia and Cyprus.

There has been a steady flow of British troops eastward, although not all are destined for Chanak and Constantinople. Some are going to Mesopotamia (where the Turks are threatening land invasion,) others to India and some to China.

The allied naval and land forces is the greatest display of armed strength concentrated in one area since the great war.

Washington, Feb. 8.—American warships in Turkish waters will continue their station there and take no part in the dispute between the Turkish and allied governments, which has brought threats of bombardment, it was stated officially here today.

The American naval forces now in Turkish waters comprise the U. S. cruiser Pittsburgh, the converted yacht Scorpion and twenty destroyers.

The Turkish order for allied warships to leave the harbor is not interpreted here as referring to the American destroyers now on duty there. Officials said the Angora government was fully cognizant that the small forces of American naval strength in Turkish waters was there on peaceful business and the Turkish ultimatum was construed by officials as referring only to the larger war vessels of the allied powers.

London, Feb. 8.—The representative of the United States at Smyrna has joined the allies in a protest against the Turkish order that all foreign warships must leave Smyrna harbor according to information received by the British foreign office from Constantinople this afternoon.

Admiral Nicholson, of the British navy, has arrived at Smyrna on the British warship Curacoa to consult with the Turkish commander.

It is understood that the order for withdrawal of the warships at Smyrna was issued by the Turkish chief of staff and not by the national assembly at Angora as first reported.

The Turkish chief of staff has been on a tour inspecting the military defenses and he issued the now famous order just after leaving Smyrna. The allies have communicated with Angora in an effort to reach the Turkish officer, but he was not in that city.

The order still stands, although the allies are not heeding it.

A press dispatch from Constantinople at 2:30 o'clock said that Smyrna was quiet. The Turks, the telegram added, were not trying to enforce the withdrawal order.

MRS. HALL SAILS FOR ITALY.

New York, Feb. 8.—While scores of reporters sought her on another liner, Mrs. Frances Noel Stevens Hall, widow of the Rev. Edward Wheeler Hall of New Brunswick, N. J., who was murdered last September with Mrs. Eleanor R. Mills, a choir singer, sailed for Italy on the steamship America. Mrs. Hall was accompanied by Miss Sally Peters, who acted as her confidante and adviser during the long and fruitless investigation of the double slaying.

RATIFICATION OF DEBT TREATY NOW EXPECTED

Head of Greek Church In Constantinople

Here is His Holiness, Meletious, Patriarch of all the Greeks, whose office corresponds to that of the Pope in the Roman Catholic Church. The photograph was made on the steps of the Patriarchate, at Phanar, Stamboul, the Turkish quarter of Constaneinople. The Patriarchate has been the residence of the spiritual head of the Greek Orthodox church for 600 years, but the Turks are threatening to expel him. The Patriarch is closely guarded because of Turkish threats of assassination.

AUTO ASSOCIATION ATTACKS GASOLINE TAX BILLS PENDING

Fred Caley Says Proposal Is Biggest Lobbying Ever Done In State

Columbus, Feb. 8.—An attack against the gasoline tax proposals now before the legislature was launched by the State Automobile association in an attempt to overcome what President Fred Caley of the association characterized as "the most elaborate example of organized lobbying the state of Ohio has ever witnessed." Caley accused the road material interests of backing the movement for the gasoline tax.

"The road material interests have elaborate suites in the best hotels in Columbus," he charged, "and are spending thousands of dollars to push a gasoline tax bill through, knowing that it means millions for them if they succeed."

Caley pointed out that the proposals call for the revenue from the tax to be placed in a road maintenance fund, which obviously means, he asserted, more business for makers of road material.

A statement has been sent by Caley to all members of the legislature and to 700 auto club officials, in which it is held the gasoline tax is unfair, unnecessary and unreasonable, and that it "burdens the poor and favors the rich." Caley predicts in event of the bill's passage an "orgy of gasoline bootlegging."

TORPEDO BOAT DAMAGED.

Constantinople, Feb. 8.—An American torpedo boat was damaged in collision with the French cruiser Renan today. The French vessel was not damaged.

SMOOT-BURTON BILL WILL PASS POLL INDICATES

Believe President's Request Will Be Gratified Before Next Week.

DEMOCRATS OPPOSED

Outlook for Ship Subsidy Not So Rosy, Survey of Congress Shows

Washington, Feb. 8.—Congressional ratification within ten days of the Anglo-American agreement for refunding the $4,600,000,000 British war debt was the aim of administration leaders today as a result of President Harding's appeal for an early settlement.

An unofficial poll of both house and senate, according to administration leaders, revealed there was a preponderance of votes for enactment of the Smoot-Burton bill which authorizes settlement of the debt on the terms negotiated by commissioners of the two governments.

In the house there was every indication the measure would be passed without serious opposition and even without prolonged debate. In the senate however, there was a growing feeling of opposition among members of the "farm bloc" and from a faction of Democrats.

The debt bill, sponsored in the house by Rep. Burton, Republican of Ohio, one of the American commissioners, will pass before the end of this week or early next week, it was said. With considerable debate expected in the senate, the measure probably will not be finally enacted before the end of next week. It will be championed in the senate by Senator Smoot, Republican of Utah, also a debt commissioner.

The senate finance committee met today on a call from Chairman McCumber, Republican of North Dakota and was to take up the Smoot bill for consideration. There was a possibility the committee would take action today.

While administration leaders expect to obtain considerable support from the Democratic membership of both the house and senate, there also will be stubborn opposition from Democratic senators.

Members of the senate "farm bloc" were luke warm in their opinion of the settlement. Senators Capper of Kansas, chairman of the bloc, Ladd, of North Dakota and Norris of Nebraska, members, announced they had not yet reached a decision on whether they should support it.

On the president's other appeal—for decision on the shipping bill—the outlook was far from rosy.

A strenuous effort will be made for the next three days to force the ship subsidy bill to a vote in the senate, and if at that time a vote is not in sight then administration leaders have tacitly agreed to drop it in favor of the debt settlement. Meanwhile, President Harding is going to throw the full weight of his influence behind the bill. A number of senators inimical to the bill probably will be summoned to the White House for personal conference during the rest of this week.

MARRIAGE IS FAILURE SAYS OHIO JUSTICE

Cleveland, Feb. 8.—"Marriage is a failure. As a social institution it has failed miserably."

This is the measured opinion of Judge Samuel Silbert of the Cleveland municipal court expressed today.

"Love after marriage in most cases is 'bunk' ", continued the jurist who has watched on the oldest of all human institutions from advantage point on the bench.

"Most romances fade as the honeymoon wanes, and were it not for fear of what the neighbors and families would say there would be many more marriages go on the rocks in the divorce courts.

Love of children, religious scruples and fear of popular criticism are the three factors that keep many people together as the love light grows dim, Judge Silbert believes.

COUNTY OFFICIALS NAMED

Toledo, Feb. 8.—Sensational testimony developed during the federal court trial of George Isaacs and Ray Schall of Bryan, O., and Norman Bushie, Detroit, who are charged with conspiracy to violate the Dyer auto theft act by transporting stolen automobiles from Detroit to Bryan and Montpelier and reselling them. Charges made by B. J. Licciardi, former secret service agent were that two Williams county officials were involved in the auto stealing conspiracy. He testified that Isaacs said, "I have the goods on the sheriff and prosecuting attorney and they will leave you alone if I say so." The names of Lew Perkins, sheriff, and W. E. Demuth, prosecuting attorney, were mentioned as the officials to whom Licciardi referred.

BRITAIN REJOICES OVER BIRTH OF KING'S GRANDSON

London, Feb. 8.—Princess Mary, Viscountess Lascelles, daughter of King George and Queen Mary to whom a son was born last night, was resting easily today. The son was described as "a fine, healthy child."

All Britain joined in universal rejoicing today over the birth of the first grandchild of the king and queen. King George was described as the "happiest, proudest man in the empire."

Dr. Henry Simson and Dr. Stanley Hewitt, the attending physicians, said that the viscountess had spent a comfortable night. She plans to go to southern France after the baby is christened.

Telegrams were sent out early today notifying the Prince of Wales, the Duke of Connaught, Prince George and other members of the royal family of the happy event. Soon telegrams of congratulation were pouring into Chesterfield house.

It is expected that the baby's full name will be selected from those of most intimate relatives, being limited to four or five Christian names. Names of foreign royalty will be excluded contrary to the old custom.

Members of the royal circle believe that the boy's name most likely will be George Henry Edward Ulick.

The christening robe will be a rich garment colored with old lace which has been in the royal family for four generations. It was first used at the baptism of the late King Edward VII. The christening probably will take place in the chapel royal of St. James palace with the prince of Wales and other members of the royal family standing as god parents. The date of the christening has not been fixed.

There was much jubiliation and excitement among all the members of the royal household, extending even to the servants of Buckingham and St. James palaces.

It is likely that King George will soon make Viscount Lascelles, the father, an earl, thereby making the infant heir to the earldom.

All the newspapers today devoted much space to the happy event. A new war could scarcely have exceeded the amount of type given over to the tiny arrival. Small attention was given to President Harding's message to the American congress asking ratification of the plan for funding the British debt.

Both the king and queen called at Chesterfield house to inquire after their daughter's condition and to get a peep at their grandchild.

It is understood that the mother has given orders that the child is not to be carried in arms during its infancy. She has installed a "moses cradle" where the child will lie most of the time. The tiny new comer will not lack garments. He has a tremendous wardrobe. Practically all the clothes were made either by Princess Mary or her moeher, the Queen, both being accomplished needle women and both very fond of sewing.

MUST HAVE AUTO TAGS BEFORE FEBRUARY 15

Extension of time for motorists to procure their 1923 license plates will not be extended beyond February 15, according to City Auditor T. H. Zell, distributor here.

Chief of Police M. E. Graham and distributors were advised Thursday that all automobile owners must have their license tags by Feb. 15 or be subject to arrest,

The time of grace was extended longer than usual this year because of the fire which destroyed the license making plant and delayed production. A sufficient supply is now on hand according to City Auditor Zell, who says motorists have been negligent in equipping their machines with the licenses.

WAY CLEARED FOR NICARAGUAN CANAL

Washington, Feb. 8.—The way was cleared today for the building at some future time a Nicaraguan canal, "a second Panama Canal, providing another short water passageway from the Atlantic to the Pacific.

Announcement was made at the state department that the United State has signed a protocol with the government of Costa Rica. which definitely removes all obstacles in the way of the projected canal.

The most important feature of the proposed canal is that it wouldn't be subjected to the tolls restrictions under which the Panama Canal now operates. This feature would be a decided blow to British commercial interests and a consequent advantage to American shipping.

CREW OF SCHOONER LANDED SAFELY AS SHIP IS GROUNDED

Norfolk, Va., Feb. 8. — The coast guard cutter Manning, which went to the assistance of the five masted schooner on the reefs seven miles south of Cobb island, reported to coast guard headquarters today the rescue of Captain L. G. Pickett and crew of ten men who were landed on Cobb island.

The schooner Frank M. Deering was blown ashore during a severe snow storm and gale Monday evening. Owing to her position, the sutter Manning was unable to get any closer than a mile and the men had to be taken off in small boats, owing to heavy seas which were continually breaking over the vessel. This required skillful and heroic work on the part of the cutter's crew. The schooner will be left to salvaging crews.

About two years ago the Carrol G. Deering, a sister ship of the Fred M. Deering, was found ashore on Diamond Shoals with all sails set, a passing ship discovered the plight of the ship and receiving no answer to signals communicated with the coast guard.

When the Carrol G. Deering was boarded she was found to be in perfect condition, even the dinner on the table being undisturbed, but her captain and entire crew of eleven men were missing and up to this time they have not been heard from.

It's Grandmother's Recipe to Bring Back Color and Lustre To Hair

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulpher Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days. Adv

Protect Yourself Against Winter Coughs, Colds, Catarrh

The season of danger for all. No one should be without a good reliable remedy with which to fight off these troubles—a remedy of known worth and dependability.

With the stomach and bowels in healthy working order and the mucous membranes free from catarrhal inflammation there is little to be feared from the rigors of the weather.

PE-RU-NA

The Standby for More Than Fifty Years

It is by soothing the diseased and inflamed membranes, regulating the digestion, aiding elimination and enriching the blood that Pe-ru-na encourages every organ to a healthy normal action and gives health to the whole body. For any and all catarrhal conditions there is nothing better than this world famous Pe-ru-na, the remedy which Dr. Hartman, the most successful specialist of all time in the treatment of catarrh used with such wonderful results.

There are literally thousands who owe their very lives to Dr. Hartman and willingly acknowledge it. The merits of Pe-ru-na as a dependable emergency winter medicine has been proved in no uncertain way during the last half century.

Used Pe-ru-na Thirty Years

"Years ago I was cured of catarrh of the head by three bottles of Pe-ru-na. In teaspoonful doses every hour it soon checks a cold and relieves a cough. I have taken it with good results as a Spring tonic. For thirty years I have used and recommended Pe-ru-na."

TO CELEBRATE FIFTIETH WEDDING ANNIVERSARY FRIDAY.

The happy occasion of the fiftieth wedding anniversary of Mr. and Mrs. John A. White, two of Xenia's older residents, will be celebrated at their home, 252 South Chestnut Street, Friday, February 9. Mr. and Mrs. White's children will hold a family dinner at their home on that day, and the members of the C. E. Conwell Bible Class of the Friends Church will form a reception committee at the residence, from three to nine o'clock, Friday, to receive all who wish to call to extend felicitations.

Mr. White was born in Bradford County, Pennsylvania, April 27, 1850, and as a young man came to Warren County, Ohio, in 1872. On February 9, 1872 he was united in marriage to Miss Mary L. Ludlum, three children being born to them, Wilbur E. White, Mrs. Adah J. Hutton, and Leon White, all residing in Dayton.

Mr. and Mrs. White are the grandparents of four children, Ethel and Howard Hutton, and Mary and Christine and Adeline White, daughters of Mr. and Mrs. Leon White. Mr. White has three brothers and one sister living, while Mrs. White has a brother and a sister.

Mr. and Mrs. White moved to Xenia in 1882 and have resided on Chestnut Street, in five different residences for 32 years. Mr. White was an employe of the Pennsylvania railroad company for 35 years. They have held their church affiliations with the Friends Church for the last ten years.

MRS. KINGSBURY CELEBRATES BIRTHDAY WEDNESDAY

Mrs. Sarah Kingsbury, who is residing at the home of her son, Mr. R. S. Kingsbury, on West Second Street, was honored with an enjoyable family gathering at her home, Wednesday, in celebration of her eighty-seventh birthday.

Mrs. Kingsbury, who has been confined to her room for the past five weeks, was able to come downstairs, and have luncheon with the members of the immediate family, including Mrs. J. H. Littell, Betty and Dorothy Kingsbury, her nephew, Mr. Robert H. Kingsbury, her niece, Mrs. Hugh Kimes, Dayton; her sister Mrs. Margaret Dillencourt, and niece, Miss Letitia Dillencourt.

Mrs. Kingsbury was also the recipient of many flowers and gifts from friends.

CHILDREN ATTEND BIRTHDAY PARTY IN DAYTON.

Four Xenia youngsters were among the guests at the birthday party given by Master Gibson Diehl, at his home on East Fourth Street, Dayton, Wednesday afternoon, in celebration of his eighth birth anniversary.

Games were enjoyed and dainty prizes were presented to youthful winners. The guests were seated for luncheon at tables decorated with electric lights, valentines and baskets of candy. Each child was given as a favor a candy lollypop, dressed as a doll. Master Gibson received many lovely gifts. Dorothy and Eloise Coy, daughters of Mr. and Mrs. Fred Coy of West Second Street, and James and Billie Knisley, sons of Mr. and Mrs. Carl Knisley of Charles Street, this city, were among the guests.

YOUNG WOMAN DIES WHILE ON VISIT HERE

Stricken with a sudden heart attack, while visiting her mother in this city, Mrs. Aaron Warren, of Springfield, formerly Miss Grace Morton, daughter of Mrs. Anna Morton, of this city, died at the home of Mrs. T. L. Magruder, on North Detroit Street, Thursday morning at 10:30 o'clock.

Her death came as a shock to relatives and friends, and is thought to have been due to her weakened condition, resulting from an attack of grip, she suffered about three weeks ago. Mrs. Warren had come to this city a few days ago, to visit her mother, who resides with Mrs. Magruder.

Mrs. Warren was well known in this city, having taught in Central High School, as head of the Domestic Science department for two years entering the school during the first year of the regime of Superintendent of Schools C. A. Waltz. She was popular among pupils and friends during her teaching service. Before coming to Xenia she taught in Pittsburgh, Pa., schools, and graduated from the Home Economics department of a Detroit, Michigan, school.

Mrs. Warren was born in Cedarville and was educated in the public school there, before moving to Xenia with her mother. She was an only child and her father preceded her in death several years ago.

Her marriage to Mr. Warren, of Wilmington, was solemnized in Detroit, Michigan, about two years ago. Following her marriage she resided with her mother for some time, moving to Springfield only recently. She was affiliated with the Presbyterian denomination.

Funeral arrangements have not been completed and will be announced later.

OUTBREAK OF INFLUENZA GROWS MORE SERIOUS

Epidemic Conditions Again Threaten Danger To Thousands

Gain Strength to Resist the Germ by Taking Father John's Medicine

Health authorities say that an epidemic of influenza is now threatened in many sections of the country and the need for caution is greater than ever. The disease appears to have really come back and while doctors urge calmness, they admit that the danger is everywhere present and every safeguard should be taken.

Your greatest danger from the germ is when you are tired or run down. In this condition your system is unable to fight off the disease germ and you need a strengthening food tonic such as Father John's Medicine to rebuild your resisting power. The pure food elements of Father John's Medicine make new strength and fighting power.

If you catch cold your danger is even greater because colds quickly develop into grip or pneumonia.

Every home should keep Father John's Medicine on hand during this time of danger because it is the logical, safe remedy for colds. Its soothing elements heal the irritated lining of the breathing passages; its gentle laxative effect drives out impurities and its strengthening elements are of great value. Guaranteed absolutely free from alcohol or any dangerous narcotic drugs in any form, Father John's Medicine may be taken with safety by every member of the family.

The danger from cough or cold "cures" containing morphine or opium in any of its disguised forms is especially great at this time because these narcotics weaken the patient, depress the heart action and open the way for more serious illness.

HARDING AND 1924.

Since March 4, 1921, the weight of 100,000,000 Americans, their quarrels, ambitions and controversies have rested on the back of Warren Gamaliel Harding. The troubles of a considerable part of the world have looked in at the White House windows.

He has not had a good time, such as he had in the old and pleasant Senate days. Coal and rail strikes have harassed him. The bonus and the Shipping Board have plucked at his sleeve. Old friends and enemies in the Senate have irritated him. Congress, as stubborn as an artillery mule, repudiated his leadership and refused to find its own.

"Irreconcilables" damned him for trying to do anything and double-damned him for not doing something. Last November 7 was a sickening, shaking jar.

His wife has been sick. When in the interests of his own health his doctor sent him out into the sunshine to play golf, Democrats and high-grass demagogues have jeered at him. Job hunters have become a weariness unto his soul.

Men have said that he wanted to get out of the job and turn his back forever on the White House. They said he was irritated, weary, disgusted and was muttering under his burdens.

Consequently and most naturally, a good many Republican lightning rods have been shoved up into the political skies. Ambitious souls have been getting ready to count the President out.

The President is a good-natured man and given to meekness. It is good to beware of arousing the wrath of the meek. That, it seems, is what the pushful presidential aspirants have done. The White House is muttering; there have been radical changes in the Senate majority's organization. Whether his tactics prove good or bad, the President has begun to fight back and is letting it be known that he will "not quit under fire."

If this determination holds, the chances are that the Republican National Convention of 1924 will name President Harding to succeed himself.—Philadelphia Public Ledger.

GERMANY IS SHOWN UP IN RUHR, SAYS POINCARE.

Speaking at the banquet Sunday night of the Association of Republican Journalists, Premier Poincare said: "Germany, by our entry into the Ruhr, has been led to show us what she would have liked to hide from us a few years longer. She was forced to show her hand. Never up to the present have her governments wished sincerely to execute the treaty. Never have they wished to pay reparations. They had but one idea—to delude and tire us out.

"As to us—what do we want? Two things only—to be indemnified for our ruins and to be safe from future attack. Neither in the Ruhr nor on the Rhine do we seek anything else. But what we seek we intend to get. We will not give way, but the day Germany opens her eyes to the evidence and is ready to make honest proposals we will not refuse to examine them.

"We will examine them, however, without preliminary conditions and without giving up against promises, no matter what may be the pledges we have been obliged to seize. We have had too many promises; we want realities, not merely fugitive realities, but lasting realities.

"The restoration of our devastated regions is at stake; nay, rather, it is the future of France; it is the peace of Europe. And that peace, for which we ask not a square inch of German territory, that peace in which we seek only reparations and safety, we are resolved to establish at last on indestructible foundations."

SPEAKING UP FOR MEXICO.

The apparently concerted effort in the legislative bodies of a number of the western states, including up to the present time Wisconsin, Minnesota, Kansas, Arizona, and the two Dakotas, in addressing Washington in behalf of an early recognition of Mexico, is certainly interesting, and may be significant. Just what influence has led to action of this sort taken in common is not more apparent at present than what forces have led the Administration at Washington to delay so long the recognition which Mexico seeks, and seemingly deserves.

Presumably these western legislatures were influenced by the spectacle of a Mexico which is more orderly than it has been since the time of the overthrow of Diaz. Even those American interests, which for their own purposes are desirous of keeping Mexico outside of the pale of recognition until concessions have been made to them, are unable to cite disorder and banditry as reasons for the refusal of recognition. Without ostentation or noise Obregon has restored order, and is rapidly building up again the industrial and political organization which will make Mexico truly great.

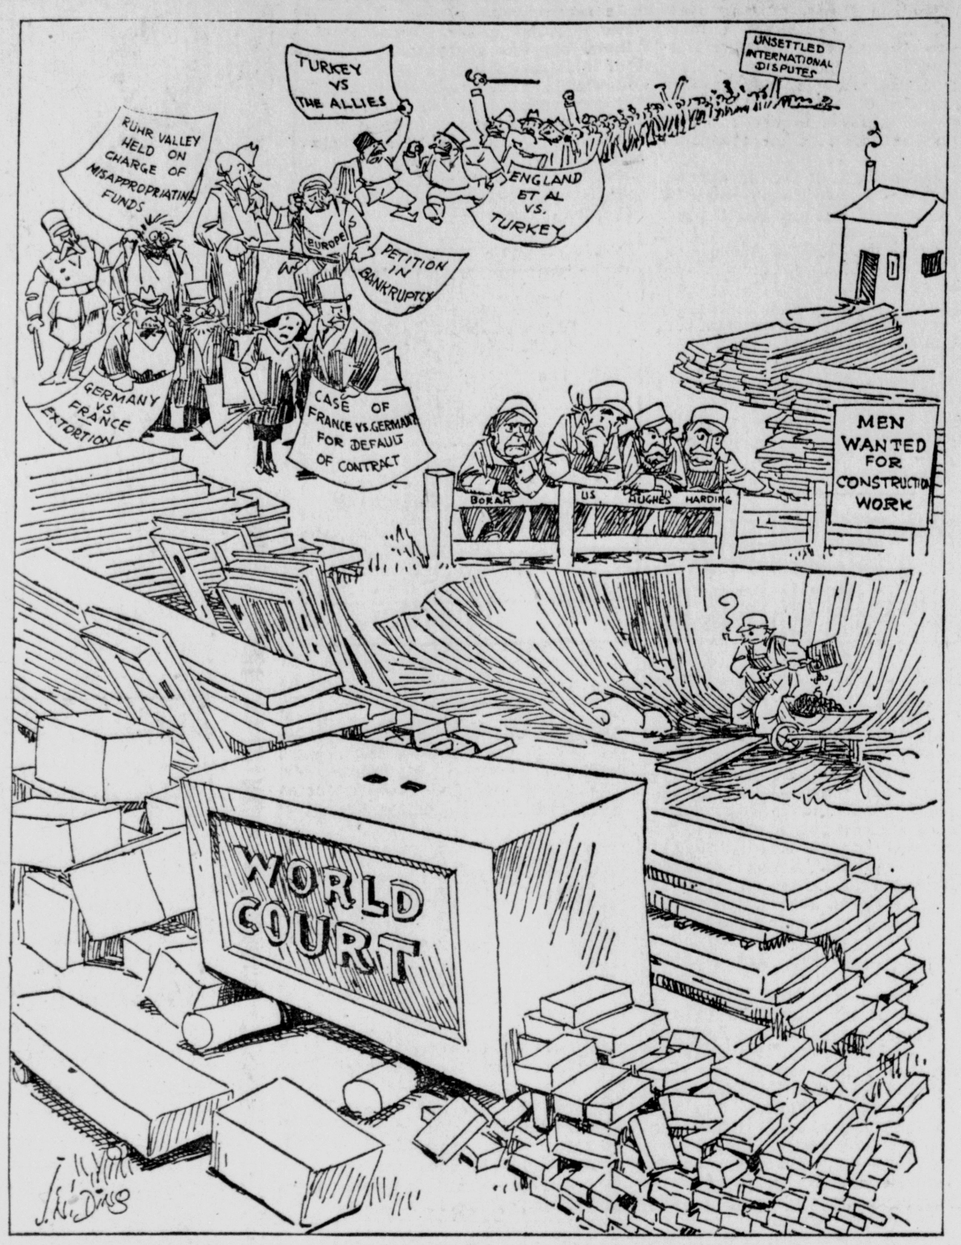

Report has it that the insistence of mercenary interests north of the Rio Grande, claiming certain rights in mineral deposits in Mexico which the Mexican constitutioon would save for the benefit of the Mexican people, has caused the prolonged inaction of the Government of the United States in this matter. But most of the American people are not interested in oil, nor in coal, copper or silver, however much a few fortunate concessionaires may be. They are interested materially in trade, and more than that they are rightly concerned that their Government should not set an example of trying to ostracize a neighbor, struggling upward toward a better organization of its state, simply because the mercenary interests of a comparatively few people may be menaced thereby. The action of these state legislatures seems to indicate a demand that the people, instead of the profiteers be heard.

THE COMMONPLACE AND THE IDEAL.

One has only to walk abroad, with an open eye, to see everywhere the reflections of the ideal shining through the ordinary. Perhaps, if it be on a winter morning, even so lovely a thing as a cinder-strewn pavement may awaken interest. Someone—doubtless the janitor in this case—had taken kindly thought for others; and those who passed that way walked more securely because of that modest, but friendly service. Some of the passers-by, it may be, remembered to return a grateful thought. Perhaps on the next wind-swept corner, the interested observer sees a man, with hoary locks, slight, poorly clad, and bearing the marks of toil-filled years, scattering crumbs from a crumpled paper bag, before a flock of iridescent pigeons. Commonplace? Yes; and beautiful, too. He had remembered the weak; and he had shared. These little feathered things, helpless before the heavy snows, enjoyed a breakfast which, without such practical friendliness, might have been at least uncomfortably delayed. Farther down the street, attention is arrested by a friendly driver, pushing his motor truck against a heavy load of coal, and helping the slipping horses up an icy hill. Commonplace—until one gropes toward the real force, the kindly thinking, that moved the load.

Everywhere it is the same. Around the corner, on the street cars and ferries of the cities, or along the rural lanes, these little deeds, of sundry details in various settings, reveal the ideal, the tender, the fine, emerging from the commonplace. The analysis is encouraging.

BEAUTY CHATS

by EDNA KENT FORBES

A YOUNG MOTHER'S QUERY

I had a rather pathetic letter the other day from a girl of only 19, a young mother who had recently weaned her first baby. The bust had become almost flat. It was dry and shriveled and looked as though she might be nearer 90 than 19. What could she do, she asked, to restore the beauty and youth of which she had always been proud.

Let me quote here the advice of an authority. Generally nursing the baby at first is a painful and sometimes nauseating experience. Generally also the bust becomes flat when the child is weaned.

If the bust enlarges very much before the child is born a light unboned braissiere should be worn with straps over the shoulders. This should be adjusted so it does not confine the bust, but so that it completely supports its weight; otherwise the muscles, bearing an undue strain, will sag after it returns to normal size.

This is something in which the the average doctor is not interested and the average nurse does not know.

Also the bust should be massaged daily, from the sixth month on, with a little olive oil—with a motion as near the nursing of a child as possible. This, and daily bathing with salt water, will so strengthened the breasts that nursing will not be pain ful.

When the child is weaned it should be done gradually, and nothing should be used to dry up the milk. This will take care of itself. The brassiere should still be worn, the breasts should still be massaged with olive oil for several months afterwards, and the daily bathing with salt water should be continued.

If this is done there is no reason why the figure afterwards should not be as beautiful as before. There is never any reason why motherhood should spoil a woman's beauty.

Sarah Marie—For a very dry scalp rub into it a small amount of olive oil after the shampoo. This may be done without making the hair oily, if you separate the hair into strands and massage only a few drops of oil into the scalp from the tips of the fingers.

Weighty:—You are 40 pounds over weight. A woman of 40 years, height 5 feet 4 ins., should weigh about 130 and 135 pounds. The excess flesh is probably causing the shortness of breath and your other discomforts If you wish my reduction diet, send a letter in which there is a stamped addressed envelope enclosed, and I will mail it to you.

Mother—Your little girl's hair flies about when you touch it with a comb because it is full of natural electricity. This indicates health.

Tomorrow—Neat Looking Hair.

TORTURED MANY YEARS BY KIDNEYS.

"I have had kidney trouble for 12 years," writes H. P. Pinkney, West Jackson, Miss. "Pains in back, joints catches in the hips, run down and getting up too much during the night. But since taking Foley Kidney Pills, my suffering is over and I feel like a new man." Backache, rheumatic pains kidneys and bladder trouble quickly relieved with Foley Kidney Pills. THIS LITTLE BABY GIRL

Was Benefited by the Good Her Mother Got from Lydia E. Pinkham's Vegetable Compound

Pittsburgh, Pa.—"I took Lydia E. Pinkham's Vegetable Compound before my little girl was born, and the effect it had was wonderful. This will be the first child I have nursed, as I had to bring my two boys up on the bottle. I was very nervous and worried, tired all the time, and after I read about the Vegetable Compound I tried it and kept on with it. I still continue its use and recommend it to my friends. You may publish these facts as a testimonial for your medicine."—Mrs. Wm. Klinge, 169 Plymouth St., Pittsburgh, Pa.

It is remarkable how many cases have been reported similar to this one. Many mothers are left in a weakened and run-down condition after the birth of the child, and for such mothers the care of the baby is well-nigh impossible. Not only is it hard for the mother, but the child itself will indirectly suffer.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It can be taken in safety by the nursing mother.

Rippling Rhymes by Walt Mason

ELECTRIC LIGHTS.

When in my cozy room o' nights I count my blessings every hour; I push a button and the lights shine forth with potency and power. Last night the button failed to work, some dynamo had broken down, and midnight shadows seemed to lurk o'er all the sore and saddened town. My aunt produced an ancient lamp, with misfit glass and shade of green, and its exterior was damp with evil-smelling kerosene. I cranked it up and lit the wick, and said, "Now we shall have some light;" the smoke it sent forth, dark and thick, increased the blackness of the night. When turned too low it gave no light, when turned too high it acted drunk, and I exclaimed, "Dodgast the wight who ever made such hopeless junk." I fooled with it in my abode, neglecting more important chores, and in the end saw it explode, and blow my aunts clear out of doors. My clothes were wet with kerosene, my hide was full of broken glass, and neighbors say they wist and ween my language shriveled up the grass. Our fathers used such dizzy traps to light their homes, and thought them great, and much I fear we modern chaps don't realize our rich estate. I count my blessings, count count them all, since with that coal oil lamp I wrought; I press a button in the wall, and lo, the light to me is brought.

Today's Talk

WORK FOR THE GLORY OF THE THING

At the bottom of all effort, there is but one thing that really counts—the personal happiness and satisfaction that comes from having wrought right.

I have in my proud possession several beautiful artist's proofs of etchings. In many cases the artist printed only two or three proofs and then the plate was destroyed, I have looked at these lovely proofs time and again and I have marveled that an artist would deprive the world of such beauty by limiting the number of proofs.

But when I learned the character of this particular artist, I understood. It was not his idea to produce things that would sell and bring him wealth. His entire life was devoted to teaching others how to appreciate and then taking, as his pay, glory in just doing the thing for the pure pleasure and happiness of it.

I understand why a man can spurn mere money rewards.

For money can appeal only to the material—except where indirectly it brings satisfaction to the soul in things secured through its use.

But how happy are those who work for the glory of the thing!

What a thing to count your wealth in beauty, in appreciation, in the warmth of friendship and the love of those near and dear.

Does not all nature open its arms and give you a royal welcome every day that you look out across the open sky? And doesn't the glitter of the stars at night give you a feeling of possession of all great things?

Today, as you work—and it doesn't matter what that work may be— if you tun your heart to the eternal chords, you will work for the glory of the thing you do, and you will tingle with happiness at the chance'

ANTIOCH COLLEGE OFFERS COURSES IN GOOD LITERATURE

University instruction in English literature is offered to interested persons in Xenia and vicinity for the coming four months, by instructors of Antioch College, Yellow Springs. The instruction will be given at 4:15 o'clock each afternoon, in one of the class rooms on the first floor of the High School building, at Yellow Springs, beginning Friday, February 9.

Special subjects of the course will be chosen from the following list: first, a selection representing dramatic literature of the present time, especially the works of Maeterlinck; Stephen Phillips; Rostand, Dr. V. Moody; John Lynge; Bernard Shaw and Eugene O'Neil. These plays will be studied as representative of social conditions and contemporary thought, according to college instructors. The second division will be the poetry of Alfred Tennyson, and Robert Browning, with lectures on the moral and religious teachings of these authors. The third division will be a selection of the more important plays of Shakespeare, King Lear, Othello, Anthony and Cleopatria and Julius Caesar. Patrons will be allowed to choose one of these courses in accordance with the taste of the majority.

The instructor of the course will be Lincoln R. Gibbs, professor of literature, of Antioch College. Before coming to Antioch, Mr. Gibbs, was professor of English at the University of Pittsburgh. He has offered many courses in extension work and was very popular in that field at Pittsburgh.

College credits will be given for the course, the fee for the 20 weeks lectures to be $10.

PORT WILLIAM MAN SUCCUMBS TUESDAY

Jonah Vandervort, 67, prominent farmer of near Port William died Tuesday evening at the Miami Valley hospital in Dayton, following an operation which was performed in the hape that it might prolong his life. His death was due to cancer. He had been a patient at the hospital for the last four weeks.

Mr. Vandervort was born in Clinton County February 10, 1856 and was a member of an old and well known family. All of his married life was spent on the farm near Port William. He was a member of the Christian Church at Bowersvile and was prominent in all of its activities.

He is survived by his wife who was before marriage Miss Rosa Earley, and one daughter, Mrs. Brenda Brann of Wilmington He was a brother-in-law of S. S. Earley of the Wilmington pike and has a number of other relatives in this city and vicinity.

The body of Mr. Vandervort was taken to the home of Mr. and Mrs. Clifford Brann, in Wilmington, where funeral services will be held Friday afternoon at two o'clock.

Burial will be made in the Wilmington Cemetery.

SPORTS

NOW COMES MT. PLEASANT WITH PROTEST

CENTRAL AND LONDON ABOUT TO SPRING AT EACH OTHER

OF CAESARCREEK GAME—EAST HIGH ACTIVE

Mt. Pleasant Enters Protest

Taking issue with the announcement that Caesarcreek High School basketball team had defeated Mt. Pleasant High last Friday night, Mt. Pleasant patrons have entered a protest through this column and claim that Caesarcreek was defeated 24 to 21 in an overtime game.

Caesarcreek originally claimed the victory by a score of 25 to 23, and information for the story originally published of the contest was furnished by a Caesarcreek High youth. In the protest filed by Mt. Pleasant High authorities they claim that the score was 20-20 at the end of the regular time and that Huffman and Shank each scored field goals for their team in the five minutes overtime while the best Caesarcreek could do was a foul shot by Peterson.

The sport columns of this paper are open to clean athletics in the County, but it is not the intention to make them the common ground for an interscholastic controversy, so both claims are printed without comment as to their integrity. The question is probably one for the athletic board of control of the county schools to decide and we suggest that they take steps to avoid future similar occurrences by the appointment of a responsible scorekeeper in each school. Sport Editor.

CENTRAL AND LONDON TO MIX

Sparks will fly when Xenia High basketball team and London High get together on the high school court here Friday evening.

The blue and white pill tossing aggregation has not been hanging up any pink and white cage record for posterity to shoot at this season, which means that the athletes, having struck bottom, are now being primed for the rebound.

It is long worm that has no turning, and supporters of Central High believe that Captain Don Currie and his fellow sufferers will toss a mean come-back into the ring when they assemble with the visiting performers Friday night.

A scoreless tie in football and a defeat in basketball suffered at the hands of the Madison County athletes during the last year, should be enough incentive to make Coach Earl Burgnerh's performers grit their gums and come out of the melee with a victory Friday.

EAST BUSY AGAIN FRIDAY
By WONES.

East High School court athletes will get back into action Friday night when they tackle the Columbus "Bi "Y" team at the East High Gym. East was forced to cancel last week on account of the grip epidemic and it may have been all for the best as it gave the locals another week to prepare for the struggle.

Coach Harris has been drilling his warriors hard all week in order to have them in the pink of condition for the game. He has also given them some new plays which they will work against the visitors. The locals have been practicing with the John Roan Post for the last few evenings and this has helped them considerable. So far the East High lads have only dropped one game and that was to Wendell-Phillips High of Chicago.

The locals will present their same lineup with "Snake" Taylor and "Jew" Porter at the forwards "Beware" Ware at the tip off position, "Snub" Smith and "Sol" Ware at the guards. There will be a preliminary game in which the East High Girls will tangle with the Dayton girls. L Rachford will officiate.

TWO GAMES FOR THURSDAY

The St. Brigid High School five will clash with the St. Mary's Marians of Dayton Thursday at the Rink. This ought to be a good game as both teams have been going at a fast clip all season.

The St. Brigid Juniors will meet the Dayton Merits in the preliminary which will start at 7:30. Both the High School and the Juniors teams are coached by L. Rachford the local referee so the boys know enough about the indoor game. E. Leahey will handle the whistle.

EXPLAINS WATCH TO KIWANIS MEMBERS

The intricate and delicate mechanism of a watch, was interestingly explained to members of the Xenia Kiwanis Club by J. Thormb Charters, jeweler at the meeting and dinner at the Elks' Club Wednesday evening.

Giving a history of the timepiece, Mr. Charters explained different eras in its construction and development down to the present time, and told members that its delicate construction, illustrating with small watch parts he passed among members.

Mr. Charters and D. D. Jones had charge of the program of the evening and Mr. Jones introduced a departure from the usual manner of giving the weekly attendance prize. Ten members whose names were drawn were required to stand up, while Mr. Jones with a spelling book conducted an old-fashioned spelling bee that furnished much merriment. Wilson Galloway was winner of the prize being the last member of the "spelling class" to remain standing while James Paullin won the "booby prize" for being the first to be spelled down." Good attendance marked the meeting.

MAYOR HARTLEY ILL

Mayor M. J. Hartley, South Detroit Street, was taken to the Espey Hospital, Wednesday evening. Mr. Hartley had been suffering from a second attack of grip, when pneumonia developed. His condition is considered grave.

Help Yourself to Health and Comfort

THOUSANDS of people do not stop to think of the harm which may result from drinking coffee and tea.

If you have frequent headaches —if you are nervous and irritable —if you cannot sleep at night—it is time to find out the cause and help yourself to health and comfort.

You alone can do it. Postum makes it easy.

Just stop coffee and tea for a while and drink delicious Postum instead. You will find it wholesome and delightful, with a delicate fragrance and a fine, full-bodied flavor.

Made from wheat, roasted just like coffee, Postum contains no caffeine, nor any other harmful ingredient.

Your grocer sells Postum in two forms: Instant Postum (in tins) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in packages) for those who prefer to make the drink while the meal is being prepared; made by boiling fully 20 minutes.

XENIA TELEPHONE EMPLOYES INVITED TO "FIRST AID" MEET

Employes of the plant department of the Xenia Bell telephone company, will be guests of the Springfield company, at a "first aid" dinner at the Springfield Chamber of Commerce, Friday night. The Springfield, Piqua, and Xenia plant employes will be included in the guests at the banquet.

J. J. McCarthy, Columbus, first aid director for the southern division, will be the principal speaker. J. W. Cherry Columbus, division plant superintendent, also will attend. A special first aid moving picture will precede Mr. McCarthy's address.

The dinner will mark the first steps on the part of the local men to take part in a state-wide first aid competition to be held next spring by the Bell Company. Employes of the plant departments were instructed in first aid last fall at a special school in Dayton. Since that time they have been organized into five teams.

The winning team will complete in a contest at Cleveland to which only division champions are eligible. and the winner of the Cleveland contest will take part in a national competion.

J. E. WADDLE SELLS GROCERY BUSINESS

J. E. Waddle, operator of a grocery and cream business on West Main Street, has sold his business to Walter Hansell well known farmer of northeast of Xenia, who will take possession of the business March first.

Mr. Waddle, who has conducted the grocery and cream business here for the last five years, will retire from business for the present but has not announced his future plans.

Mr. Hansel is planning to hold a sale at his farm February 12, and will move his family to this city about the first of March.

BUYS PROPERTY

Charles T Moore has purchased a house and property including 11.1 acres of land on West Second Street and is preparing to remodel the house for occupancy within a short time.

The property is located just outside the corporate limits and is a part of the Carl Wright and Boyd Hopping farm, which was owned recently by Ralph Horney and then sold to A C. Luttrell, who has lived there for the last two years. The deal was completed by W O. Custis, real estate agent.

EAGLES STAGING MEMBERSHIP DRIVE

Members of Xenia Aerie, No. 1689, Fraterna Order of Eagles, are starting an intensive membership campaign this week, in the hopes of adding 150 new memers to the lodge roster.

Every member of the organization has been provided with two application blanks and requested to obtain at least one new member for the Lodge, which would run the total membership to 446.

Plans for a complete remodelling of the lodge rooms which will include the enlarging of the club quarters to take in the whole building, will be carried out if the goal of new members is obtained, it is announced. The Lodge now does not occupy the first floor of its building on West Main Street, which is rented out as a store room, but this room will be converted into a lodge room, if the membership of the Aerie is sufficiently enlarged.

The drive will end March 4 at which time members hope to have obtained their goal.

TUNNEL WAREHOUSE AND SIPHON LARGE AMOUNT OF WHISKY

Whisky Thieves Get Away With $240,000 Worth of Stored Liquor

Baltimore, Feb. 8.—Digging a tunnel 150 feet long and three feet wide from a cellar of a house to the warehouse of the Stewart Distilling company's plant at Highlandtown, a suburb, a band of liquor thieves, with the aid of a rubber hose as a "pipe line" and a suction pump siphoned more than 100 barrels of whisky.

The robbery was discovered when police, acting on a tip from an unknown source, forced an entrance into the dwelling. The liquor was valued at upwards of $245,000.

The house, according to police, is owned by Christian Yansen, but as yet no information has been obtained as to where he can be found.

The digging of the tunnel, according to police, must have occupied at least a month, and was supervised by a person of engineering skill, as the walls and ceiling of the passage were properly lined with timber to prevent a possible cave-in. The robbers had cut a hole through a thick stone foundation to gain entrance to the warehouse. The hole, police said, was not more than 12 inches wide, and only a small man could have gained admittance to tap the barrels.

Police officials said the persons connected with the robbery knew the proper "lay out" of the warehouse and that their plans had been worked out possibly months ago. The passage way was dug so that entrance to the plant was made at a far corner of the building, where their activities were shielded by a number of barrels piled there.

WOMEN DEMAND EQUAL RIGHTS

Lansing, Mich., Feb. 8.—Marriage does not deprive the woman of her identity or subject her to the "direction or control" of her husband is the mainspring of the "women's bill or rights" which has been presented to the Michigan state senate. The bill provides that a woman may engage in business without her husband's consent; may establish her residence with or without his consent, and shall have equal guardianship over their children.

WHIPPING FOR SPEERERS

Columbus, Feb. 8.—"There should be a whipping post for some speeders," declared Judge John F. Seidel in municipal court, when he assessed a fine of $25 and costs against an offender and ordered him not to touch a steering wheel for the next 30 days.

GARMENT WORKERS GO OUT ON STRIKE

New York, Feb. 8.—Thirty-five thousand workers in the dress and waist industry were ordered out on strike because of refusal of employers to adopt the week work system to replace the piece work scale, heretofore in effect. Strike orders issued by union leaders directed the workers to march to various halls for meetings to complete strike plans. Union leaders claimed they had a strike fund of $600,000 to finance the walkout.

The strike was preceded by a walkout of 10,000 workers yesterday, including those employed in the bathrobe, house dress, children's wear and kimono shops of New York city.

MOLTEN GLASS EXPLODES.

Toledo, Feb. 8.—The lives of a score of workmen were endangered today when a tank containing 250 tons of molten glass blew up at the Owens bottle plant. The liquid spread all over the floor of the plant, but quick work by firemen, who used water to cool the liquid, prevented loss of life. The property loss is estimated at $25,000.

DESTROYED BY FIRE.

New Albany, Ind., Feb. 8.—Fire of undetermined origin early today destroyed the chain shop of the National Hame and Chain company's plant here with an estimated loss of $100,000.

FAMILY IS NEVER WITHOUT TANLAC

Favorite In Her Home, Says Mrs. Smith, and Never Fails to Give Results

"We are all enthusiastic over Tanlac at our house and just wouldn't be without it," recently said Mrs. E. Smith, of 625 Erie St., Youngstown, Ohio.

"We have used Tanlac in the family for several years, and in every instance the results are always the same.

"For stomach trouble, I don't believe anything in the world equals the medicine, and I know whereof I speak, for it relieved me entirely and gave me such a splendid digestion that nothing disagrees with me now.

"Then, too, for a run-down, weakened condition, the treatment gives better results than anything else I have ever seen. Why, the way it increases the appetite, aids the digestion and builds one up in strength and weight is simply astonishing.

"Besides my own family, I have so many friends and neighbors who speak highly of Tanlac until it would seem that our whole neighborhood is praising it. Tanlac is truly a medicine for all the family."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

MISSIONARY WRITES OF FLOOD CONDITIONS IN INDIA

The Rev. Father Maurice Norckauer, Catholic missionary to Bengal, India, and son of Mr. and Mrs. John F. Norckauer of this city, writes interestingly of flood conditions in Narikelbari, where he is stationed, in a letter published in the Bengalese, organ of the Bengal Missions.

Excerpts follow:

"You cannot imagine what a plight we have been in. The floods have been so widespread that even my own house was flooded. Water was six or eight inches over the board floor. As luck would have it, I had some trees sawed into lumber which I intended to use for tables, benches, etc. But the floods came and so instead of using this lumber for furniture I used it to build a raised platform in my house and another in the cook shed. While the water was high—that is, during two or three months—four or five of us lived up on this little shelf. If we stepped off the platform we were in water; and if we walked in the yard, we were in water up to our knees.

"My house, however, was a paradise compared with the homes of the poor natives Hundreds and hundreds of these poor people had to live and sleep out in open boats, and those who were too pr to own boats had to live like rats in what you might call the 'garrets' of their miserable shacks or out in the open on bamboo platforms

"One afternoon about a month ago, while out in my gondola, I passed the house of one of my parishioners and stopped to inquire how the family was. Their hut stood alone in the midst of rice fields. As I drew closer I noticed by the highwater mark on the side of the house that the flood waters had reached part way up on the roof I ran the nose of my boat into the open doorway and could see no one within, I suspected, however, that some one was there, as I saw a boat moored outside. After calling aloud several times and receiving no response I was about to leave when a tousled head peered out from under the thatched roof and finally the whole family crawled down to receive me. You can imagine what a wretched hole these folks had to live in.

"While the flood was on we were troubled with all kinds of jungle pests. Ants, forced out of the ground by the water, took refuge wherever they coud and nearly ate one alive. Snakes, rats and mosquitoes were everywhere Your American mosquitoes should come over here and take lessons. Even the juveniles over here could beat your full-grown mosquitoes at their own game.

"I am sure that E. Allen Poe could have drawn a few hints for his weird stories had he been here during the flood. But now that the water has been down for a few weeks our past miseries seem like a drawn-out nightmare. Everything is going splendidly at present. The second crop of rice turned out a fifty per cent harvest in my district. The third and last promises to be fair—about a 75 or 80 per cent crop. The first, you will recall, was practically a total failure. You cannot imagine how the poor have suffered during these past four months—and 90 per cent or more of the people are poor.

COUNTY AGENT FORD S. PRINCE FAVORS GROWTH OF ALFALFA

By County Agent Ford S. Prince

That alfalfa can be grown profitably on Greene County farms has been demonstrated by dozens of men making the attempt. After men have grown it, they become almost to a man enthusiastic about its use as a hay crop.

Its superiority in the feed lot is borne out by practical tests at nearly all our leading experiment stations.

At the Illinois station a group of cows were divided into two lots. Lot No. 1 was fed nine weeks on alfalfa, and Lot No. 2 on bran. They had other feeds, too, but in similar quantities. The only difference in their ration was that one had alfalfa hay, the other bran.

At the end of the ninth week the feeds were changed—those that had ben fed on bran were changed to alfalfa and those fed on alfalfa were fed the bran ration. The total milk production for the 19 weeks shows a balance of 375 pounds of milk in favor of alfalfa feed. And it costs a great deal less to grow afalfa than to buy bran!

At Nebraska, two lots of steers were fed ,one on alfalfa corn and straw, the other on prairie hay, cottonseed meal, corn and straw.

The first lot gained 2.3 pounds per day, the second 1.9 pounds per day. The profit at end of the 157 days feeding period was $17.50 per steer for the first lot and only $6.90 per steer for the second lot.

At the Kansas Experiment station at weaning time several litters of pigs were separated in two lots. Lot No. 1 was fed in a dry lot on corn alone, with no grass or other feed of any kind. Lot No. 2 was fed on corn and alfalfa pasture for 80 days, then, the pasture being exhausted, they were put in a dry lot and feed on corn and alfalfa hay for 100 days.

Six months later the pigs were killed. Those in Lot. No. 2 averaged 185 pounds each. Those in Lot. No. 1 averaged only 75 pounds.

The corn produced an average daily gain of .14 pounds, or it required 17 3-4 pounds corn for each pound gained. The corn and alfalfa produced an average daily gain of .75 pounds, or it required 5.97 pounds of corn and .12 pounds of hay for each pound gained.

If this experiment had been conducted with home grown hogs the difference would not have been so great because the grown hogs would have used more of the carbohydrates of the corn to lay on fat, but the young pigs could add only a small amount of fat until they had grown a frame on which to put it

Corn is deficient in protein and has an abundance of starch and sugar. Neither alfalfa nor corn, when fed alone will give the best results, but a combination of the two makes a perfectly balanced ration. This experiment shows the need of protein for growing animals.

For hogs the alfalfa may be fed in racks but it is more economical to cut it up by running it through a silage cutter.

One hundred dollars invested in alfalfa hay at current market prices will buy more protein and more carbohydrates than it will in bran, middings, oil meal or any other hay crop or concentrated feed, and it can be grown more cheaply than it can be bought. The moral is we should grow more alfalfa hay in Greene County.

LIQUOR PIRATES LOOT SHIP

New York, Feb. 8.—The British schooner Marion Mosher, alleged rum runner, whose seizure by American dry forces led to international complications, bobbed up again in the news—this time as a victim of rum pirates. The office of the collector of the port received word from Henry S. Culver, American consul at St. John, New Brunswick, that the Mosher had just reached that port with her holds empty. The explanation given by her master, the consul said, was that pirates had robbed his craft on the high seas.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30c.

Mother-To-Be, Read This—

Here is a wonderful message to all expectant mothers. When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used only Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes.

Note: Write for valuable free illustrated book, "Motherhood and the Baby," containing important authoritative information which every expectant mother should have, and all about "Mother's Friend." Bradfield Regulator Company, BA-23, Atlanta, Ga. "Mother's Friend" is sold by druggists everywhere.

Styles BY LENORE

No one can accuse these frocks of being the least bit "fussy" The little girl who brings her mother up properly will see to it that all her frocks have this sophisticated simplicity.

Candy pink taffeta with just the suggestion of gold in its sheen is the alluring material which makes the frock with the roller girdle. An unusually soft and rich looking finish is given the skirt by sewing the upturned hem to an inner foundation, avoiding any stitchig on the outside, and allowing the bottom to remain unpressed.

The other frock is made of crepe de chine in a pleasant shade of myrtle green. No mention is given sleeves. The circular cut of the bolice makes that unnecessary. For the waistline two bands of silver ribbon are used. and an adorable touch is added by a small cluster of pink rosebuds at the center.

MURDERER BOUND OVER TO GRAND JURY

Roy Garrison, 35, Dayton, charged with attacking Charles McDonald, 45, Greenfield, Indiana, former O. S. and S. O. Home pupil, with an axe and killing him on the Findley street dump, Dayton, Sunday night, was held to the grand jury without bond.

Garrison waived preliminary examination, when he was arraigned Wednesday in the Dayton police court, charged with the murder.

McDonald's body is being held at the Jackson Undertaking parlors at Dayton, until city officials decide whether they can legally defray the costs of burying him.

TEXT BOOK PRICES ARE GETTING HIGHER

Prices of other commodities are coming down, but the prices of school text books are continuing to climb in Ohio, it has been learned.

Text books publishers are compelled to list their prices in Ohio, with the state department of education, it is explained, and the prices stand for five years before they can be revised. Under the law, boards of education and the publishers must respect those price lists.

During the war, when prices of other commodities soared prices of school text books in Ohio remained stationary, because of the provision that the list prices must remain for five years.

Since the war, the prices are being revised and all the revising is being done upwards to make up for the low prces of the war period.

For the last several years, prices of text books in Ohio have had an upward tendency.

DEBS TO RE-ENTER POLITICS

Cleveland, Feb. 8.—Eugene V. Debs announced here his intention of actively re-entering politics. He also will take the platform in a fight for his doctrines. Debs, five times a candidate for president of the Socialist ticket, was nominated the last time while imprisoned at Atlanta federal prison. He was sent there after trial here in federal court for a speech made at Canton. President Harding freed him.

KELLOGG'S BRAN is a blessing to humanity. It relieves Constipation because it is ALL BRAN!

Kellogg's Bran every day is permanently relieving thousands of constipation sufferers throughout the world. No other food in history has done so much to give back health to men, women and children. IT IS SCIENTIFICALLY PREPARED TO HELP SUFFERING HUMANITY AND IT WILL DO THAT AS NO OTHER FOOD CAN! Physicians universally are indorsing Kellogg's Bran because it acts naturally and positively, and because it frees sufferers from the habit-dangers of drastic cathartics.

Kellogg's Bran has won national recommendation because it is so delicious aside from its regulatory value. Do not confuse Kellogg's with common brans which are unpalatable and hard to swallow. You will relish the nut-like flavor of Kellogg's Bran; it adds greatly to the enjoyment of hot or cold cereals!

Eat Kellogg's as a cereal or sprinkle it over your favorite hot or cold cereal. Another popular way to serve it is to cook it with hot cereals. In preparation, add two tablespoonfuls of bran for each person when the cereal is cooked. You'll like it with hot milk! Kellogg's Bran makes wonderful cookies, raisin bread, pancakes, etc. Recipes on every package.

To win permanent relief it is only necessary to eat Kellogg's Bran regularly and to be certain to eat at least two tablespoonfuls each day; in chronic cases, with each meal.

The relief Kellogg's Bran gives, as a natural bowel agent, is wonderful. Without the slightest distress it sweeps, cleans and purifies, ridding the system of toxic poisons and warding off some of the most terrifying diseases to which human beings are heir.

Don't delay this natural relief; give your family the benefit of this message of health—this great blessing to humanity! Kellogg's Bran is served in individual packages by leading hotels and clubs. Ask for it at your restaurant. All grocers.

ICE SKATING GROWS POPULAR AT KIWANIS CLUB POND THIS WEEK

Time and money contributed by the Xenia Kiwanis Club to provide Xenia ice skaters with a skating pond, was rewarded this week when old man Cold Weather furnished a perfect skating surface for the Kiwanis pond in the Dodds addition, on the site of the old Schmidt ice pond.

Quick to take advantage of the first ice skating that has been provided here for some time, skaters have been flocking to the pond daily and nightly. Owing to the considerable area of the ice, the pond will accommodate many skaters and it is rapidly growing in popularity.

The ice pond idea was the brain child of a Kiwanis Club member, voiced in a meeting some time ago. A committee to carry on the work was appointed and the club went to considerable expense to have the small stream that passes through that section dammed at the culvert entrance to provide the pond. Considerable effort has also been expended in keeping the water dammed and in cleaning out the pond to furnish a smooth surface.

Members, however, felt that they would be disappointed by a lack of freezing weather when the cold weather developed this week. A man employed by the club tested the ice and found it practically all of sufficient thickness to support any number of skaters and permission for the sport was immediately granted. The man retained by the Club is on guard constantly at the pond to warn skaters of thin ice zones and to watch children and skaters are asked to pay ten cents to him for the privilege of skating as long as they desire.

Many skating parties were hastily formed Wednesday to take advantage of the ice skating facilities and more will be held on the pond if the gradually warming weather does not make the ice unsafe. By action of the Kiwanis Club lovers of the sport are enjoying the first ice skating in the city that has been available in years, and former skaters are searching out forgotten and rusty skates and again putting them in service .

It has been my experience that the average person who wishes to give a St Valentine's Party has his or her own ideas concerning how to decorate table and rooms, as well as what to serve for refreshments. But the thing that puzzles, in most cases, is what games to play Try the following:

Where's Your Heart? The players sit in a circle and the first one says to his left hand neighbor: "Where's your heart?" The neihbor replies by saying anything he pleases—such as "My heart is with the stars above." The one who asked him where his heart was, must now reply with a sentence which rhymes such as "It looks as if you were in love." Then the one who said his heart was with the stars, turns to his left hand neighbor and asks "Where's your heart?" etcetera. The more ridiculous the sentences, the better.

Cutting the Heart String: Hang a large red cardboard heart by a string from your chandelier. Blindfold each guest in turn, twirl him around several times, and push him forward to try to cut the heart-string with a large pair of scissors. If one succeeds in doing this before all have had a turn, tie the heart up aain until all haev tried. Then those who have succeeded must play a little rubber game all by themselves to decide the winner. A simple prize might be given for this contest.

Heart Mystery: Each player is asked to hide his eyes while the hostess pins on his back a heart upon which is writted a word suggesting love—such as "Courtship," "Honeymoon," "Marriage," "Solitaire," etcetera. Now each guest ust guess what his "label" is, from the conversation of other guests. For instance the person who is labelled "Solitaire" is asked such questions as: "Did it cost over $100?" "Did it fit her?" or "Did she like it?" As each one gueses correctly he may sit down. The last on the floor is given the booby prize.

Making Valentines: Put glue, cardboard, red crepe paper, white lacy paper, colored crayons, and as many pairs of scissors as there are guests on a table. At a signal all start to make a valentine in five minutes. The pretties result brings a prize.

A PURITAN WIFE

By Jane Phelps

DICK BELDEN . . . . . .
CHAPTER 3

Three more months rolled by and Ann was almost discouraged, yet not one word did she write that might disturb the dear ones at home. She often thought of Dick Belden—he had told her his name and asked hers—and wondered if she would ever see him again.

The strong vitality of the man, his boyish sympathy, his good looks had taken a hold upon her imagination. She would shut her eyes and see him swinging down the street in his free, easy way, see the graceful gesture when he removed his broad-brimmed hat, see his laughing blue eyes and the sun of his hair.

"I'll never see him again, what's the use thinking of him?" she asked herself, but somehow went right on thinking.

Then one day he appeared at the schoolhouse just as the children were trooping out, calling "goodbye, teacher," Ann being a favorite with them all.

"They seem to like you ,"Belden said as he took her hand, nodding toward the fast disappearing group.

"I guess it's because they know I like them," Ann replied smiling.

"Couldn't ask a fellow in to chat a bit?" the man suggested.

"Why, yes—that is, if you don't mind the janitress. She commenced to clean as soon as the children are dismissed."

"Don't mind her a bit! What I do mind is not having a place where we can talk."

Dick followed her into the schoolroom, and they sat side by side on the raised platform upon which stood her desk, while the janitress grumbled under her breath because of the interruption.

For an hour they chatted, mostly of him, his ranch. Then he walked home with her, stopping to rest when he saw she was tiring, accommodating his long strides to her steps, and apologizing when he forgot.

"I am going to be here several days —got business to attend to. Can I walk home with you tomorrow if I get to the schoolhouse in time?"

"I should be very glad to have you —if you will walk a little more slowly," Ann replied laughing.

"I'll try." He laughed too. "But I'm so use to travelling alone that I pace off distance without thinking. You see the ranch is pretty big, and I tend to it myself. It takes some walking to cover the ground."

"She's a bright little thing, so cheerful and gay when she's sick," he muttered as he left her. "Nothing gloomy about her—she's pretty too, and so little." He had the big man's admiration, his feeling of protection, for a tiny woman.

Every day Belden called at the schoolhouse for Ann and several times he took her to ride in a hired motor in the early evening careful not to keep her out late because of the dampness.

The time to return to his ranch was drawing near. When she thought of it Ann wondered how she was to go on without him.

She had given her feeling for him no name, but knew she was happy with him, longed for him when she did not see him.

"I must go back to the ranch tomorrow," he said as they sat on the porch of the boarding house, Ann carefully wrapped in a shawl.

"Will you go with me, Ann? I love you, little girl. Will you marry me? A ranchman with out anything in the world but his ranch and his two hands to work it? Do you care for me, dear?"

"Yes—I think—I know I do!"

"You will marry me?" his voice joyful.

"Yes, when this term is finished."

Belden took Ann into his strong arms, and between confidence such as lovers make he assured her she would soon be well and strong, that he would take such good care of her, that she was sure to love the ranch and so on.

"The house doesn't amount to much but if we have one or two years we can fix it up or build a new one," Dick told her after they settledown to talk of other things than the wonderful love that had come to them.

Hhe left the net day and Ann, happy as she never had been in all peaceful life, wrote home of the great love that had come to her, told them she had given her promise, and described her lover with partial eyes so that John Peabody said:

"He must be a good man, Sarah. Ann would not write like that if he wasn't."

"But it means, John—she will live out there!"

"I know—but the doctor was saying the other day she must try to go where it was warmer as soon as she could.

She wrote him—she promised you know—that she was still coughing. God will take care of her, mother. And of us. He has sent this young man to help us keep her perhaps."

So they comforted each other, and wrote Ann they were happy in her happiness, sending her a small check to help buy what she would need as a bride.

Her salary was pitifully small and she had very little left after paying her board. That they too had little, was not mentioned.

My Dear Professor Marshman:

I need not tell you how cordially I wish you and your associates a most eminent success in carrying out your ambitious program for the further development and expansion of Ohio Wesleyan University.

Coming from a neighboring city as I do, I feel almost a personal interest in the growing fortunes and influence of Ohio Wesleyan. It has always been an Ohio institution in which those of us in neighboring counties felt a very especial pride, and I know something of the splendid contribution which the University has made to men eminent in the professional, religious and political life of the republic.

Fortunately located, with a splendid record already made, I can well believe that the friends of Ohio Wesleyan will take exceptional interest in making an outstanding success of the large program which you have in mind. Please be assured of my more than cordial good wishes.

Very truly yours,

Prof. John T. Marshman,

MINIMUM WAGE ACT POSTPONED BY COMMITTEE

Labor Committee Commends Proposal to Name Commission

MAY NOT BE REVIVED

Finance Committees Visit Longview Hospital—Assembly Adjourns

Columbus, Feb. 8.—Both houses of the legislature adjourned at noon today to enable the speaker of the house and president pro tem of the senate to accompany members of the house and senate finance committee on a trip to Cincinnati to visit Longview hospital and be entertained by Cincinnatic civic organizations. The solons will reconvene Monday evening.

Six bills were passed by the house late yesterday, including one providing that municipalities condemning property for public improvements may assess up to 50 per cent of the cost of condemnation upon property in the district benefited, and one providing for nomination of school board members by petition only.

The senate labor committee, by a vote of 4 to 3, last evening killed the Burke minimum wage bill by indefinite postponement and by the same vote recommended adoption of the Burch resolution for appointment of a fact-finding commission to study the subject of minimum wages for women and minors and report to the next assembly. There is said to be little chance of reviving the Burke bill on the floor of the senate, and indications are that the Burch resolution will be adopted.

Burke charged the resolution was an attempt to "camouflage" and "a means adopted to kill the bill." He said "a man who has considerable influence in this senate" had said in the Deshler hotel a few nights ago that "the way to kill the Burke minimum wage bill is to pass the resolution." Burke did not name the man, however.

Those voting to indefinitely postpone Burke's bill and to recommend adoption of the Burch resolution were Burch of Akron, McCoy of Youngstown, Wenner of Ashtabula and Mrs. Loughead of Cincinnati. Opposing this action were Burke of Elyria, Bender of Cleveland and Adair of Wayne county.

Burch said he was not opposed to a living wage for women and minors and that he did not believe any member of the senate was, but that they did not now have sufficient facts upon which to base a minimum wage law. Senator Loughead, Cincinnati, one of the two women senators, made the motion to postpone indefinitely the minimum wage bill.

The house codes committee killed three bills affecting present divorce and marriage laws, including one to make divorce easier, another to make it more difficult to obtain a marriage license, and one to prohibit remarriage of persons within one year after divorce.

The house temperance committee recommended for passage the Gordon bill, providing for the insertion of the "padlock" clause of the Volstead act in the Ohio prohibition law.

The bill introduced in the legislature by Representative Herbert of Columbus, which would have reduced the time between sentence and execution of a condemned prisoner from 100 days to 30 days has been killed in the house committee on benevolent and penal institutions. The committee also killed a bill calling for rigid inspection of convents.

FIVE HURT IN BLAST.

Cleveland, Feb. 8.—Five men were injured, three seriously today, when a stick of dynamite exploded in the rear of the Collinwood junior high school. A laborer's pick struck a buried stick of dynamite the explosive let go, and five men were buried by the blast. Two thousand school children at classes in the building, marched out without disorder.

POILUS GIVE SWEETS TO CONQUERED CHILDREN

Nations may fly at each other's throats, but the average enlisted man, caring little about what he is fighting for, doesn't hold animosities long. Germany and France are as bitter enemies as ever, but this group of French poilus, in Essen, has bought up all the candy in town and is throwing it to the little German children, just as the American doughboys used to delight to do in Coblenz before they wound un "Der Wacht am Rhine."

Mystery Surrounds Dramatic Suicide Of Young Girl Who Quotes Shakespeare

New York, Feb. 8.—"The rest is silence."

Leaving this quotation from Hamlet scrawled on a bit of paper by her bed, together with a letter to a friend in London, Miss Marie Bloomfield, honor student at Barnard college here, killed herself by drinking poison.

Today her quotation is believed. For police and Barnard college authorities want to know why Miss Bloomfield, first in her classes, and leader in college activities, should have found "the times so out of joint" that death was the only solution.

The sole clues, except for the words Hamlet, to the mental state which influenced the pretty 18 year old girl from Columbus, Ohio, to drain a glass of cyanide of potassium were found in a note addressed to Mrs. Bruce Cummings, Earl's Terrace, London, describing "how much Barbellion's journal has affected my life," and a copy of Keats' "Ode to a nightingale."

Barbellion's Journal is a depressing account of the experiences of a man whose spirit wished to do much, but who was stayed from accomplishment by the knowledge that death would come in a year's time.

Miss Bloomfield was the first girl student to die in a Barnard dormitory.

Miss Bloomfield, who had left Willard Parker Hospital Saturday after three weeks treatment for measles, was found dead in bed by her private nurse and several of her class mates who became alarmed when she did not appear for supper.

On her door was a card.

"Asleep, please don't disturb—Marie Bloomfield," it read.

They entered an adjoining room and went through a communicating door. Failing in their efforts to arouse her, they summoned a physician, who at first pronounced her death from natural causes.

But after an examination by the deputy medical examiner it was pronounced suicide and the body was ordered to the morgue for an autopsy.

Miss Bloomfield had so far recovered from her illness that she was able to resume the second half of the term work and had attended classes apparently in good spirits on the day before her death.

The "Ode to a nightingale" was copied in pen and ink and contained the lines:

"I have been half in love with easeful death."

ELECTRICITY PROGRAM WILL COST MILLIONS

Additional Generating Facilities to Be Provided Within Year

COST 75 MILLIONS

Dayton Power and Light Involved in Large Consolidation

Cleveland, Feb. 8.—More than $75,000,000 will be spent in Ohio within the next three or four years for the building of additional facilities for the generation and distribution of electricity to meet the demands occasioned by business expansion and increased use in the homes, it was announced here today. The program is now under way, and a considerable part of the work will be done during the present year.

Practically every large city in Ohio will be affected by the plan, which involves establishment of an Ohio super-power zone system, which will link together most of the great electrical central generating stations of the state. Lack of water for condensation purposes in the electrical generating stations, particularly in the central portion of the state is becoming an extremely serious problem, and is one of the factors in the present program it was stated.

Before the end of the year electricity generated on the Ohio River will meet with electricity generated on the shore of Lake Erie by reason of the physical connection between the properties of the Cleveland Electric Illuminating company, the Northern Ohio Traction and Light company, and the American Gas and Electric company through its subsidiary, the Ohio Power Company. Work on this project is already under way.

Engineers are now considering the feasibility of hooking up the properties of the Union Gas and Electric company, at Cincinnati so that they could carry a current as far as Columbus. With this scheme is also involved the problem of linking together the Dayton Power and Light Company, which serves many towns in southwestern Ohio, and the Consolidated Light, Heat and Power company, of Huntington, W. Va., which serves cities in southeastern Ohio and West Verginia.

New generating stations will be built this year at many points, costing millions of dollars, and additional millions will be expended in the the building of this tension transmission lines. For the present maximum capacity of these will be 132,000 volts but in some instances this will be increased to 220,00 volts.

The program for this year means the expenditure of approximately $40,000,000 in the building of new generating plants at Zanesville, Steubenville, Cleveland, Windsor and Beach Bottom, W. Va., and the extension of the transmission lines.

Among the cities that will be benefitted by the program are Cleveland, Toledo, Cincinnati, Columbus, Dayton, Youngstown, Coshocton, Warren, Zanesville, Lima, Mansfield, Lorain, Elyria, Springfield, Canton, Alliance, Massillon and scores of smaller cities.

AUTO STRUCK BY TRAIN

Chicago, Feb. 8.—Mrs. James Fenress, wife of the president of the Chicago Tubing and Braiding company was instantly killed when her automobile was struck by a passenger train as she was returning home from a skating party.

"PIG WOMAN" TELLS NEW STORY IN HALL-MILLS MURDER CASE

New Brunswick, N. J., Feb. 8.—With Mrs. Frances Stevens Hall, widow of the murdered rector of the Protestant Episcopal Church of St. John the Evangelist upon shipboard bound for Italy for a year's seclusion, Mrs. Jane Gibson, the "pig woman" who claimed to be an eye witness of the killing of Rev. Dr. Hall and his choir singer, Mrs. James Mills, completely revised her story today.

Mrs. Gibson said that Mrs. Mills cried out after the shooting began, uttering the name of a woman and not the name of a man.

"She screamed, 'please, please, please,' " declared Mrs. Gibson, "calling the name of a woman. I can tell why Mrs. Mills throat was cut after she had been shot. That was to remove the marks of finger prints."

"Did some one choke her?" Mrs. Gibson was asked.

"Draw your own conclusion," replied the pig woman.

Mrs. Gibson was nervous and ill at ease. She said that she had been annoyed for some time by prowlers about her home.

"Gossip says that my life is in danger," added Mrs. Gibson. "Only the other day I found a man's glove in my barn and turned it over to the detectives. I am trying to sell my farm and if I am able to do so, I intend to leave. Once safely away I may spring a surprise in this case. I will tell the true story of the Hall-Mills murder as I know it. But I doubt if it would bring about conviction of persons whose names I might mention because of their prominence."

Mrs. Gibson maintains a watch dog to watch her home at night.

ATTORNEY ADMITS HE SENT LOVE NOTES TO CINEMA ACTRESS

Los Angeles, Feb. 8.—What were described in court as "love messages" George Edwin Joseph, New York attorney, admitted sending to Pauline Frederick, film star, after he had known her for one week, were a part of the record today in Judge Parker's court where Joseph is seeking to recover $36,000 for legal services and Miss Frederick has countered with a claim for $47,647 she alleged was due her.

Joseph testified he met Miss Frederick for the first time August 23, 1919, and on September 1, following which Joseph, on his way east, sent the following telegram from Winslow, Ariz., to Miss Frederick:

"Pauline, thou loved and lovely queen of all the land of might have been, thy gracious radiant smile illumines every weary mile."

Miss Frederick's attorney, Arthur Wright, read the telegram in court and then turned to Joseph and asked:

"Did you send that?"

"I did and I received a reply," said Joseph.

The witness followed this by producing the reply in the form of a telegram he said was from Miss Frederick. It read:

"I wish it could be answered in kind. My mother sends her best regards—Polly."

ITEM FOR HARBORS AND RIVERS STILL OCCUPIES SENATE

Washington, Feb. 8.—For the third successive day the senate devoted its entire session to discussion of the $56,000,000 rivers and harbors item in the annual army bill, but an agreement finally was reached for voting on all pending amendments this evening.

The debate covered a wide range of argument for and against waterway transportation and related topics, inicluding the constitutional right of the federal government to assume jurisdiction over intrastate lakes and streams for purposes other than that of insuring navigation. With few exceptions, every senator present was drawn into the debate.

Senator Borah, whose amendment reducing the item to $27,000,000, as recommended by the budget bureau, inaugurated the debate, declared that many projects provided for in the lump appropriation would not assist commerce "one penny" and were indefensible from any standpoint.

Senator Underwood, the Democratic leader, insisted that the government would be lax in its duty if it failed to provide for utilization of the "marvelous system of cheap transportation" lying within its borders.

TURKISH COAST IS BLOCKED BY ALLIED SHIPS

British, French, Italian and U. S. Ships Float In Turkish Waters

IGNORE TURK ORDER

America Will Take no Part In Dispute Although Vessels on Hand

Malta, Feb. 8—Increased activity by the mighty British fleet in Near East waters was reported tadny. There are more than forty British, French and Italian warships of various sizes in Turkish waters The Turkish coast is virtually under blockade.

The British Mediterranean- fleet and part of the Atlantic fleet is off the Turkish coast, The British ships are lying off Constantinople in the sea of Marmora, off Chanak in the Dardanelles, off Kum Kaleh at the entrance to Turkish straits, off Smyrna and a few are cruising farther south in the region of Adalia and Cyprus.

There has been a steady flow of British troops eastward, although not all are destined for Chanak and Constantinople. Some are going to Mesopotamia (where the Turks are threatening land invasion,) others to India and some to China.

The allied naval and land forces is the greatest display of armed strength concentrated in one area since the great war.

Washington, Feb. 8—American warships in Turkish waters will continue their station there and take no part in the dispute between the Turkish and allied governments, which has brought threats of bombardment, it was stated officially here today.

The American naval forces now in Turkish waters comprise the U. S. cruiser Pittsburgh, the converted yacht Scorpion and twenty destroyers.

The Turkish order for allied warships to leave the harbor is not interpreted here as referring to the American destroyers now on duty there. Officials said the Angora government was fully cognizant that the small forces of American naval strength in Turkish waters was there on peaceful business and the Turkish ultimatum was construed by officials as referring only to the larger war vessels of the allied powers.

London, Feb. 8.—The representative of the United States at Smyrna has joined the allies in a protest against the Turkish order that all foreign warships must leave Smyrna harbor according to information received by the British foreign office from Constantinople this afternoon.

Admiral Nicholson, of the British navy, has arrived at Smyrna on the British warship Curacoa to consult with the Turkish commander.

It is understood that the order for withdrawal of the warships at Smyrna was issued by the Turkish chief of staff and not by the national assembly at Angora as first reported.

The Turkish chief of staff has been on a tour inspecting the military defenses and he issued the now famous order just after leaving Smyrna. The allies have communicated with Angora in an effort to reach the Turkish officer, but he was not in that city.

The order still stands, although the allies are not heeding it.

A press dispatch from Constantinople at 2:30 o'clock said that Smyrna was quiet. The Turks, the telegram added, were not trying to enforce the withdrawal order.

MRS. HALL SAILS FOR ITALY.

New York, Feb. 8.—While scores of reporters sought her on another liner, Mrs. Frances Noel Stevens Hall, widow of the Rev. Edward Wheeler Hall of New Brunswick, N. J., who was murdered last September with Mrs. Eleanor R. Mills, a choir singer, sailed for Italy on the steamship America. Mrs. Hall was accompanied by Miss Sally Peters, who acted as her confidante and adviser during the long and fruitless investigation of the double slaying.

RATIFICATION OF DEBT TREATY NOW EXPECTED

Head of Greek Church In Constantinople

Here is His Holiness, Meletious, Patriarch of all the Greeks, whose office corresponds to that of the Pope in the Roman Catholic Church. The photograph was made on the steps of the Patriarchate, at Phanar, Stamboul, the Turkish quarter of Constantinople. The Patriarchate has been the residence of the spiritual head of the Greek Orthodox church for 600 years, but the Turks are threatening to expel him. The Patriarch is closely guarded because of Turkish threats of assassination.

AUTO ASSOCIATION ATTACKS GASOLINE TAX BILLS PENDING

Fred Caley Says Proposal Is Biggest Lobbying Ever Done In State

Columbus, Feb. 8.—An attack against the gasoline tax proposals now before the legislature was launched by the State Automobile association in an attempt to overcome what President Fred Caley of the association characterized as "the most elaborate example of organized lobbying the state of Ohio has ever witnessed." Caley accused the road material interests of backing the movement for the gasoline tax.

"The road material interests have elaborate suites in the best hotels in Columbus," he charged, "and are spending thousands of dollars to push a gasoline tax bill through, knowing that it means millions for them if they succeed."

Caley pointed out that the proposals call for the revenue from the tax to be placed in a road maintenance fund, which obviously means, he asserted, more business for makers of road material.

A statement has been sent by Caley to all members of the legislature and to 700 auto club officials, in which it is held the gasoline tax is unfair, unnecessary and unreasonable, and that it "burdens the poor and favors the rich." Caley predicts in event of the bill's passage an "orgy of gasoline bootlegging."

TORPEDO BOAT DAMAGED.

Constantinople, Feb. 8.—An American torpedo boat was damaged in collision with the French cruiser Renan today. The French vessel was not damaged.

SMOOT-BURTON BILL WILL PASS POLLL INDICATES

Believe President's Request Will Be Gratified Before Next Week.

DEMOCRATS OPPOSED

Outlook for Ship Subsidy Not So Rosy, Survey of Congress Shows

Washington, Feb. 8.—Congressional ratification within ten days of the Anglo-American agreement for refunding the $4,600,000,000 British war debt was the aim of administration leaders today as a result of President Harding's appeal for an early settlement.

An unofficial poll of both house and senate, according to administration leaders, revealed there was a preponderance of votes for enactment of the Smoot-Burton bill which authorizes settlement of the debt on the terms negotiated by commissioners of the two governments.

In the house there was every indication the measure would be passed without serious opposition and even without prolonged debate. In the senate however, there was a growing feeling of opposition among members of the "farm bloc" and from a faction of Democrats.

The debt bill, sponsored in the house by Rep. Burton, Republican of Ohio, one of the American commissioners, will pass before the end of this week or early next week, it was said. With considerable debate expected in the senate, the measure probably will not be finally enacted before the end of next week. It will be championed in the senate by Senator Smoot, Republican of Utah, also a debt commissioner.

The senate finance committee met today on a call from Chairman McCumber, Republican of North Dakota and was to take up the Smoot bill for consideration. There was a possibility the committee would take action today.

While administration leaders expect to obtain considerable support from the Democratic membership of both the house and senate, htere also will be stubborn opposition from Democratic senators.

Members of the senate "farm bloc" were luke warm in their opinion of the settlement. Senators Capper of Kansas, chairman of the bloc, Ladd, of North Dakota and Norris of Nebraska, members, announced they had not yet reached a decision on whether they should support it.

On the president's other appeal—for decision on the shipping bill—the outlook was far from rosy.

A strenuous effort will be made for the next three days to force the ship subsidy bill to a vote in the senate, and if at that time a vote is not in sight then administration leaders have tacitly agreed to drop it in favor of the debt settlement. Meanwhile, President Harding is going to throw the full weight of his influence behind the bill. A number of senators inimical to the bill probably will be summoned to the White House for personal conference during the rest of this week.

MARRIAGE IS FAILURE SAYS OHIO JUSTICE

Cleveland, Feb. 8.—"Marriage is a failure. As a social institution it has failed miserably."

This is the measured opinion of Judge Samuel Silbert of the Cleveland municipal court expressed today.

"Love after marriage in most cases is 'bunk' ", continued the jurist who has watched on the oldest of all human insfitutions from advantage point on the bench.

"Most romances fade as the honeymoon wanes, and were it not for fear of what the neighbors and families would say there would be many more marriages go on the rocks in the divorce courts.

Love of children, religious scruples and fear of popular criticism are the three factors that keep many people together as the love light grows dim, Judge Silbert believes.

COUNTY OFFICIALS NAMED

Toledo, Feb. 8.—Sensational testimony developed during the federal court trial of George Isaacs and Ray Schall of Bryan, O., and Norman Bushie, Detroit, who are charged with conspiracy to violate the Dyer auto theft act by transporting stolen automobiles from Detroit to Bryan and Montpelier and reselling them. Charges made by B. J. Licciardi, former secret service agent were that two Williams county officials were involved in the auto stealing conspiracy. He testified that Isaacs said, "I have the goods on the sheriff and prosecuting attorney and they will leave you alone if I say so." The names of Lew Perkins, sheriff, and W. E. Demuth, prosecuting attorney, were mentioned as the officials to whom Licciardi referred.

BRITAIN REJOICES OVER BIRTH OF KING'S GRANDSON

London, Feb. 8.—Princess Mary, Viscountess Lascelles, daughter of King George and Queen Mary to whom a son was born last night, was resting easily today. The son was described as "a fine, healthy child."

All Britain joined in universal rejoicing today over the birth of the first grandchild of the king and queen. King George was described as the "happiest, proudest man in the empire."

Dr. Henry Simson and Dr. Stanley Hewitt, the attending physicians, said that the viscountess had spent a comfortable night. She plans to go to southern France after the baby is christened.

Telegrams were sent out early today notifying the Prince of Wales, the Duke of Connaught, Prince George and other members of the royal family of the happy event. Soon telegrams of congratulation were pouring into Chesterfield house.

It is expected that the baby's full name will be selected from those of most intimate relatives, being limited to four or five Christian names. Names of foreign royalty will be excluded contrary to the old custom.

Members of the royal circle believe that the boy's name most likely will be George Henry Edward Ulick.

The christening robe will be a rich garment colored with old lace which has been in the royal family for four generations. It was first used at the baptism of the late King Edward VII. The christening probably will take place in the chapel royal of St. James palace with the prince of Wales and other members of the royal family standing as god parents. The date of the christening has not been fixed.

There was much jubiliation and excitement among all the members of the royal household, extending even to the servants of Buckingham and St. James palaces.

It is likely that King George will soon make Viscount Lascelles, the father, an earl, thereby making the infant heir to the earldom.

All the newspapers today devoted much space to the happy event. A new war could scarcely have exceeded the amount of type given over to the tiny arrival. Small attention was given to President Harding's message to the American congress asking ratification of the plan for funding the British debt.

Both the king and queen called at Chesterfield house to inquire after their daughter's condition and to get a peep at their grandchild.

It is understood that the mother has given orders that the child is not to be carried in arms during its infancy. She has installed a "moses cradle" where the child will lie most of the time. The tiny new comer will not lack garments. He has a tremendous wardrobe. Practically all the clothes were made either by Princess Mary or her moeher, the Queen, both being accomplished needle women and both very fond of sewing.

MUST HAVE AUTO TAGS BEFORE FEBRUARY 15

Extension of time for motorists to procure their 1923 license plates will not be extended beyond February 15, according to City Auditor T. H. Zell, distributor here.

Chief of Police M. E. Graham and distributors were advised Thursday that all automobile owners must have their license tags by Feb. 15 or be subject to arrest,

The time of grace was extended longer than usual this year because of the fire which destroyed the license making plant and delayed production. A sufficient supply is now on hand according to City Auditor Zell, who says motorists have been negligent in equipping their machines with the licenses.

WAY CLEARED FOR NICARAGUAN CANAL

Washington, Feb. 8.—The way was cleared today for the building at some future time a Nicaraguan canal, "a second Panama Canal, providing another short water passageway from the Atlantic to the Pacific.

Announcement was made at the state department that the United State has signed a protocol with the government of Costa Rica. which definitely removes all obstacles in the way of the projected canal.

The most important feature of the proposed canal is that it wouldn't be subjected to the tolls restrictions under which the Panama Canal now operates. This feature would be a decided blow to British commercial interests and a consequent advantage to American shipping.

CREW OF SCHOONER LANDED SAFELY AS SHIP IS GROUNDED

Norfolk, Va., Feb. 8. — The coast guard cutter Manning, which went to the assistance of the five masted schooner on the reefs seven miles south of Cobb island, reported to coast guard headquarters today the rescue of Captain L. G. Pickett and crew of ten men who were landed on Cobb island.

The schooner Frank M. Deering was blown ashore during a severe snow storm and gale Monday evening. Owing to her position, the sutter Manning was unable to get any closer than a mile and the men had to be taken off in small boats, owing to heavy seas which were continually breaking over the vessel. This required skillful and heroic work on the part of the cutter's crew. The schooner will be left to salvaging crews.

About two years ago the Carrol G. Deering, a sister ship of the Fred M. Deering, was found ashore on Diamond Shoals with all sails set, a passing ship discovered the plight of the ship and receiving no answer to signals communicated with the coast guard.

When the Carrol G. Deering was boarded she was found to be in perfect condition, even the dinner on the table being undisturbed, but her captain and entire crew of eleven men were missing and up to this time they have not been heard from.

DON'T GET UP NIGHTS

This Symptom Tells You There Is Danger Ahead. J. H. Dorton Relieved at Seventy.

J. H. Dorton, W. Graham, Va., says: "I was told that getting up nights was a disease that belonged to old people. I have found different. I have taken Lithiated Buchu (Keller formula) a short time and now I am normal. I had to get up 7 or 8 times a night. I have been troubled for 40 years. Will gladly tell anyone personally.

Lithiated Buchu (Keller formula acts on the kidneys and bladder like Epsom Salts on the bowels. It cleans them out, relieving the bladder of many abnormal deposits. These tablets costs 2c apiece. This price makes it possible to place in the formula several drugs which are useful for relief. The formula is on the package. It is not likely you have ever taken anything similar. Try a few tablets for backache, scalding, scanty or high-colored urine and frequent desire at night.

Be sure to get the Keller formula Litsiated Buchu at all drug stores, or write Keller Laboratory, Mechanicsburg, O., or locally at Sayre and Hemphill's.—Adv.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre To Hair

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulpher Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days. Adv

Protect Yourself Against Winter

Coughs, Colds, Catarrh

The season of danger for all. No one should be without a good reliable remedy with which to fight off these troubles—a remedy of known worth and dependability.

With the stomach and bowels in healthy working order and the mucous membranes free from catarrhal inflammation there is little to be feared from the rigors of the weather.

PE-RU-NA

The Standby for More Than Fifty Years

It is by soothing the diseased and inflamed membranes, regulating the digestion, aiding elimination and enriching the blood that Pe-ru-na encourages every organ to a healthy normal action and gives health to the whole body. For any and all catarrhal conditions there is nothing better than this world famous Pe-ru-na, the remedy which Dr. Hartman, the most successful specialist of all time in the treatment of catarrh used with such wonderful results.

There are literally thousands who owe their very lives to Dr. Hartman and willingly acknowledge it. The merits of Pe-ru-na as a dependable emergency winter medicine has been proved in no uncertain way during the last half century.

Used Pe-ru-na Thirty Years

"Years ago I was cured of catarrh of the head by three bottles of Pe-ru-na. In teaspoonful doses every hour it soon checks a cold and relieves a cough. I have taken it with good results as a Spring tonic. For thirty years I have used and recommended Pe-ru-na."

TO CELEBRATE FIFTIETH WEDDING ANNIVERSARY FRIDAY.

The happy occasion of the fiftieth wedding anniversary of Mr. and Mrs. John A. White, two of Xenia's older residents, will be celebrated at their home, 252 South Chestnut Street, Friday, February 9. Mr. and Mrs. White's children will hold a family dinner at their home on that day, and the members of the C. E. Conwell Bible Class of the Friends Church will form a reception committee at the residence, from three to nine o'clock, Friday, to receive all who wish to call to extend felicitations.

Mr. White was born in Bradford County, Pennsylvania, April 27, 1850, and as a young man came to Warren County, Ohio, in 1872. On February 9, 1872 he was united in marriage to Miss Mary L. Ludlum, three children being born to them, Wilbur E. White, Mrs. Adah J. Hutton, and Leon White, all residing in Dayton.

Mr. and Mrs. White are the grandparents of four children, Ethel and Howard Hutton, and Mary and Christine and Adeline White, daughters of Mr. and Mrs. Leon White. Mr. White has three brothers and one sister living, while Mrs. White has a brother and a sister.

Mr. and Mrs. White moved to Xenia in 1882 and have resided on Chestnut Street, in five different residences for 32 years. Mr. White was an employe of the Pennsylvania railroad company for 35 years. They have held their church affiliations with the Friends Church for the last ten years.

YOUNG WOMAN DIES WHILE ON VISIT HERE

Stricken with a sudden heart attack, while visiting her mother in this city, Mrs. Aaron Warren, of Springfield, formerly Miss Grace Morton, daughter of Mrs. Anna Morton, of this city, died at the home of Mrs. T. L. Magruder, on North Detroit Street, Thursday morning at 10:30 o'clock.

Her death came as a shock to relatives and friends, and is thought to have been due to her weakened condition, resulting from an attack of grip, she suffered about three weeks ago. Mrs. Warren had come to this city a few days ago, to visit her mother, who resides with Mrs. Magruder.

Mrs. Warren was well known in this city, having taught in Central High School, as head of the Domestic Science department for two years entering the school during the first year of the regime of Superintendent of Schools C. A. Waltz. She was popular among pupils and friends during her teaching service. Before coming to Xenia she taught in Pittsburgh, Pa., schools, and graduated from the Home Economics department of a Detroit, Michigan, school.

Mrs. Warren was born in Cedarville and was educated in the public school there, before moving to Xenia with her mother. She was an only child and her father preceded her in death several years ago.

Her marriage to Mr. Warren, of Wilmington, was solemnized in Detroit, Michigan, about two years ago. Following her marriage she resided with her mother for some time, moving to Springfield only recently. She was affiliated with the Presbyterian denomination.

Funeral arrangements have not been completed and will be announced later.

OUTBREAK OF INFLUENZA GROWS MORE SERIOUS

Epidemic Conditions Again Threaten Danger To Thousands

Gain Strength to Resist the Germ by Taking Father John's Medicine

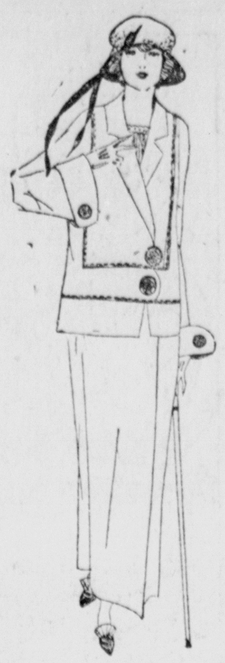

Health authorities say that an epidemic of influenza is now threatened in many sections of the country and the need for caution is greater than ever. The disease appears to have really come back and while doctors urge calmness, they admit that the danger is everywhere present and every safeguard should be taken.

Your greatest danger from the germ is when you are tired or run down. In this condition your system is unable to fight off the disease germ and you need a strengthening food tonic such as Father John's Medicine to rebuild your resisting power. The pure food elements of Father John's Medicine make new strength and fighting power.

If you catch cold your danger is even greater because colds quickly develop into grip or pneumonia.

Every home should keep Father John's Medicine on hand during this time of danger because it is the logical, safe remedy for colds. Its soothing elements heal the irritated lining of the breathing passages; its gentle laxative effect drives out impurities and its strengthening elements are of great value. Guaranteed absolutely free from alcohol or any dangerous narcotic drugs in any form, Father John's Medicine may be taken with safety by every member of the family.

The danger from cough or cold "cures" containing morphine or opium in any of its disguised forms is especially great at this time because these narcotics weaken the patient, depress the heart action and open the way for more serious illness.

HARDING AND 1924.

Since March 4, 1921, the weight of 100,000,000 Americans, their quarrels, ambitions and controversies have rested on the back of Warren Gamaliel Harding. The troubles of a considerable part of the world have looked in at the White House windows.

He has not had a good time, such as he had in the old and pleasant Senate days. Coal and rail strikes have harassed him. The bonus and the Shipping Board have plucked at his sleeve. Old friends and enemies in the Senate have irritated him. Congress, as stubborn as an artillery mule, repudiated his leadership and refused to find its own.

"Irreconcilables" damned him for trying to do anything and double-damned him for not doing something. Last November 7 was a sickening, shaking jar.

His wife has been sick. When in the interests of his own health his doctor sent him out into the sunshine to play golf, Democrats and high-grass demagogues have jeered at him. Job hunters have become a weariness unto his soul.

Men have said that he wanted to get out of the job and turn his back forever on the White House. They said he was irritated, weary, disgusted and was muttering under his burdens.

Consequently and most naturally, a good many Republican lightning rods have been shoved up into the political skies. Ambitious souls have been getting ready to count the President out.

The President is a good-natured man and given to meekness. It is good to beware of arousing the wrath of the meek. That, it seems, is what the pushful presidential aspirants have done. The White House is muttering; there have been radical changes in the Senate majority's organization. Whether his tactics prove good or bad, the President has begun to fight back and is letting it be known that he will "not quit under fire."

If this determination holds, the chances are that the Republican National Convention of 1924 will name President Harding to succeed himself.—Philadelphia Public Ledger.

GERMANY IS SHOWN UP IN RUHR, SAYS POINCARE.

Speaking at the banquet Sunday night of the Association of Republican Journalists, Premier Poincare said: "Germany, by our entry into the Ruhr, has been led to show us what she would have liked to hide from us a few years longer. She was forced to show her hand. Never up to the present have her governments wished sincerely to execute the treaty. Never have they wished to pay reparations. They had but one idea—to delude and tire us out.

"As to us—what do we want? Two things only—to be indemnified for our ruins and to be safe from future attack. Neither in the Ruhr nor on the Rhine do we seek anything else. But what we seek we intend to get. We will not give way, but the day Germany opens her eyes to the evidence and is ready to make honest proposals we will not refuse to examine them.

"We will examine them, however, without preliminary conditions and without giving up against promises, no matter what may be the pledges we have been obliged to seize. We have had too many promises; we want realities, not merely fugitive realities, but lasting realities.

"The restoration of our devastated regions is at stake; nay, rather, it is the future of France; it is the peace of Europe. And that peace, for which we ask not a square inch of German territory, that peace in which we seek only reparations and safety, we are resolved to establish at last on indestructible foundations."

SPEAKING UP FOR MEXICO.

The apparently concerted effort in the legislative bodies of a number of the western states, including up to the present time Wisconsin, Minnesota, Kansas, Arizona, and the two Dakotas, in addressing Washington in behalf of an early recognition of Mexico, is certainly interesting, and may be significant. Just what influence has led to action of this sort taken in common is not more apparent at present than what forces have led the Administration at Washington to delay so long the recognition which Mexico seeks, and seemingly deserves.

Presumably these western legislatures were influenced by the spectacle of a Mexico which is more orderly than it has been since the time of the overthrow of Diaz. Even those American interests, which for their own purposes are desirous of keeping Mexico outside of the pale of recognition until concessions have been made to them, are unable to cite disorder and banditry as reasons for the refusal of recognition. Without ostentation or noise Obregon has restored order, and is rapidly building up again the industrial and political organization which will make Mexico truly great.

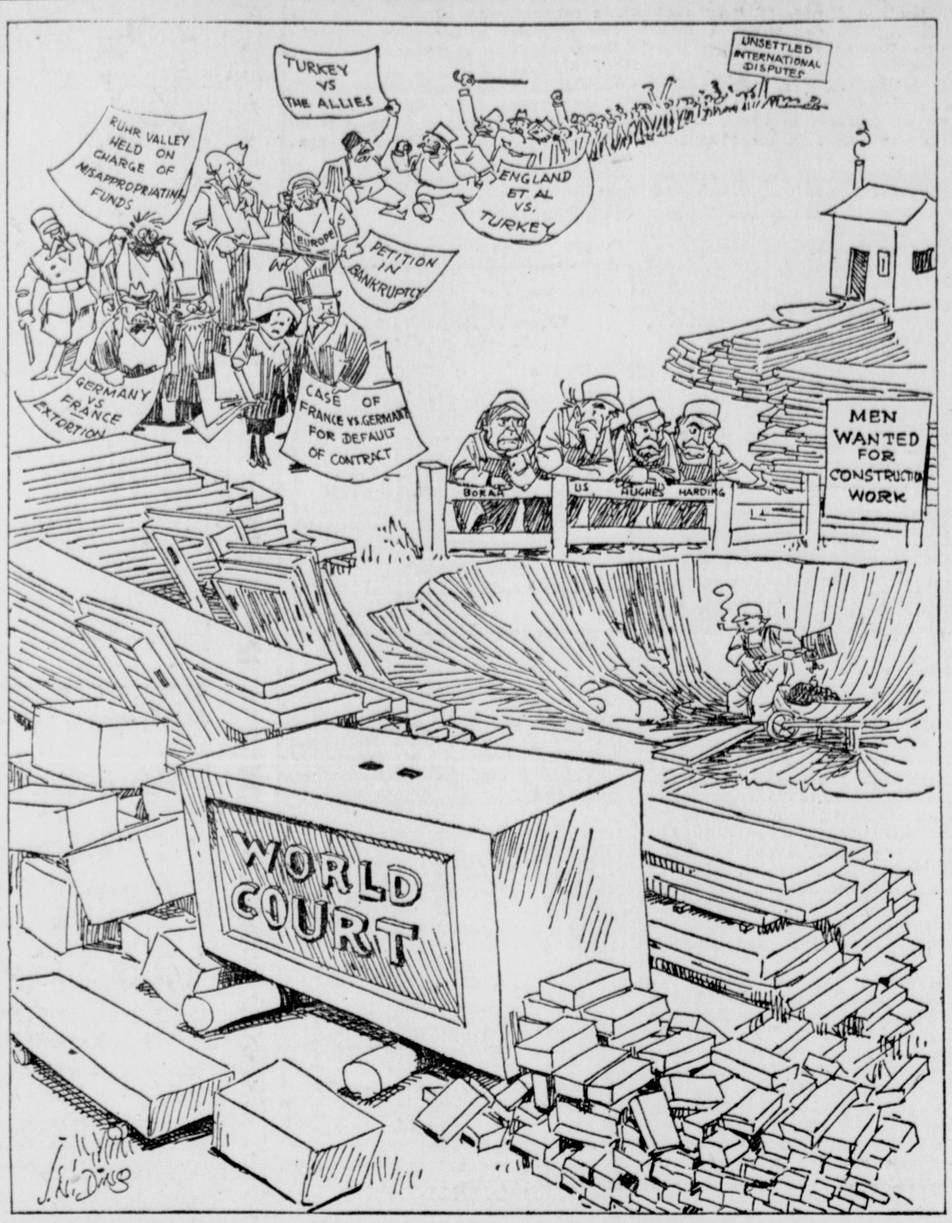

Report has it that the insistence of mercenary interests north of the Rio Grande, claiming certain rights in mineral deposits in Mexico which the Mexican constitutioon would save for the benefit of the Mexican people, has caused the prolonged inaction of the Government of the United States in this matter. But most of the American people are not interested in oil, nor in coal, copper or silver, however much a few fortunate concessionaires may be. They are interested materially in trade, and more than that they are rightly concerned that their Government should not set an example of trying to ostracize a neighbor, struggling upward toward a better organization of its state, simply because the mercenary interests of a comparatively few people may be menaced thereby. The action of these state legislatures seems to indicate a demand that the people, instead of the profiteers be heard.

THE COMMONPLACE AND THE IDEAL.

One has only to walk abroad, with an open eye, to see everywhere the reflections of the ideal shining through the ordinary. Perhaps, if it be on a winter morning, even so lovely a thing as a cinder-strewn pavement may awaken interest. Someone—doubtless the janitor in this case—had taken kindly thought for others; and those who passed that way walked more securely because of that modest, but friendly service. Some of the passers-by, it may be, remembered to return a grateful thought. Perhaps on the next wind-swept corner, the interested observer sees a man, with hoary locks, slight, poorly clad, and bearing the marks of toil-filled years, scattering crumbs from a crumpled paper bag, before a flock of iridescent pigeons. Commonplace? Yes; and beautiful, too. He had remembered the weak; and he had shared. These little feathered things, helpless before the heavy snows, enjoyed a breakfast which, without such practical friendliness, might have been at least uncomfortably delayed. Farther down the street, attention is arrested by a friendly driver, pushing his motor truck against a heavy load of coal, and helping the slipping horses up an icy hill. Commonplace—until one gropes toward the real force, the kindly thinking, that moved the load.

Everywhere it is the same. Around the corner, on the street cars and ferries of the cities, or along the rural lanes, these little deeds, of sundry details in various settings, reveal the ideal, the tender, the fine, emerging from the commonplace. The analysis is encouraging.

PLENTY OF JOBS FOR ANYONE REALLY ANXIOUS TO WORK

BEAUTY CHATS

by EDNA KENT FORBES

A YOUNG MOTHER'S QUERY

I had a rather pathetic letter the other day from a girl of only 19, a young mother who had recently weaned her first baby. The bust had become almost flat. It was dry and shriveled and looked as though she might be nearer 90 than 19. What could she do, she asked, to restore the beauty and youth of which she had always been proud.

Let me quote here the advice of an authority. Generally nursing the baby at first is a painful and sometimes nauseating experience. Generally also the bust becomes flat when the child is weaned.

If the bust enlarges very much before the child is born a light unboned braissiere should be worn with straps over the shoulders. This should be adjusted so it does not confine the bust, but so that it completely supports its weight; otherwise the muscles, bearing an undue strain, will sag after it returns to normal size.

This is something in which the the average doctor is not interested and the average nurse does not know.

Also the bust should be massaged daily, from the sixth month on, with a little olive oil—with a motion as near the nursing of a child as possible. This, and daily bathing with salt water, will so strengthened the breasts that nursing will not be painful.

When the child is weaned it should be done gradually, and nothing should be used to dry up the milk. This will take care of itself. The brassiere should still be worn, the breasts should still be massaged with olive oil for several months afterwards, and the daily bathing with salt water should be continued.

If this is done there is no reason why the figure afterwards should not be as beautiful as before. There is never any reason why motherhood should spoil a woman's beauty.

Sarah Marie—For a very dry scalp rub into it a small amount of olive oil after the shampoo. This may be done without making the hair oily, if you separate the hair into strands and massage only a few drops of oil into the scalp from the tips of the fingers.

Weighty:—You are 40 pounds over weight. A woman of 40 years, height 5 feet 4 ins., should weigh about 130 and 135 pounds. The excess flesh is probably causing the shortness of breath and your other discomforts If you wish my reduction diet, send a letter in which there is a stamped addressed envelope enclosed, and I will mail it to you.

Mother—Your little girl's hair files about when you touch it with a comb because it is full of natural electricity. This indicates health.

Tomorrow—Neat Looking Hair.

THIS LITTLE BABY GIRL

Was Benefited by the Good Her Mother Got from Lydia E. Pinkham's Vegetable Compound

Pittsburgh, Pa.—"I took Lydia E. Pinkham's Vegetable Compound before my little girl was born, and the effect it had was wonderful. This will be the first child I have nursed, as I had to bring my two boys up on the bottle. I was very nervous and worried, tired all the time, and after I read about the Vegetable Compound I tried it and kept on with it. I still continue its use and recommend it to my friends. You may publish these facts as a testimonial for your medicine."—Mrs. Wm. Klinge, 169 Plymouth St., Pittsburgh, Pa.

It is remarkable how many cases have been reported similar to this one. Many mothers are left in a weakened and run-down condition after the birth of the child, and for such mothers the care of the baby is well-nigh impossible. Not only is it hard for the mother, but the child itself will indirectly suffer.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It can be taken in safety by the nursing mother.

ELECTRIC LIGHTS.

When in my cozy room o' nights I count my blessings every hour; I push a button and the lights shine forth with potency and power. Last night the button failed to work, some dynamo had broken down, and midnight shadows seemed to lurk o'er all the sore and saddened town. My aunt produced an ancient lamp, with misfit glass and shade of green, and its exterior was damp with evil-smelling kerosene. I cranked it up and lit the wick, and said, "Now we shall have some light;" the smoke it sent forth, dark and thick, increased the blackness of the night. When turned too low it gave no light, when turned too high it acted drunk, and I exclaimed, "Dodgast the wight who ever made such hopeless junk." I fooled with it in my abode, neglecting more important chores, and in the end saw it explode, and blow my aunts clear out of doors. My clothes were wet with kerosene, my hide was full of broken glass, and neighbors say they wist and ween my language shriveled up the grass. Our fathers used such dizzy traps to light their homes, and thought them great, and much I fear we modern chaps don't realize our rich estate. I count my blessings, count count them all, since with that coal oil lamp I wrought; I press a button in the wall, and lo, the light to me is brought.

Today's Talk

WORK FOR THE GLORY OF THE THING

At the bottom of all effort, there is but one thing that really counts—the personal happiness and satisfaction that comes from having wrought right.

I have in my proud possession several beautiful artist's proofs of etchings. In many cases the artist printed only two or three proofs and then the plate was destroyed. I have looked at these lovely proofs time and again and I have marveled that an artist would deprive the world of such beauty by limiting the number of proofs.

But when I learned the character of this particular artist, I understood. It was not his idea to produce things that would sell and bring him wealth. His entire life was devoted to teaching others how to appreciate and then taking, as his pay, glory in just doing the thing for the pure pleasure and happiness of it.

I understand why a man can spurn mere money rewards.

For money can appeal only to the material—except where indirectly it brings satisfaction to the soul in things secured through its use.

But how happy are those who work for the glory of the thing!

What a thing to count your wealth in beauty, in appreciation, in the warmth of friendship and the love of those near and dear.

Does not all nature open its arms and give you a royal welcome every day that you look out across the open sky? And doesn't the glitter of the stars at night give you a feeling of possession of all great things?

Today, as you work—and it doesn't matter what that work may be— if you tun your heart to the eternal chords, you will work for the glory of the thing you do, and you will tingle with happiness at the chance'

ANTIOCH COLLEGE OFFERS COURSES IN GOOD LITERATURE

University instruction in English literature is offered to interested persons in Xenia and vicinity for the coming four months, by instructors of Antioch College, Yellow Springs. The instruction will be given at 4:15 o'clock each afternoon, in one of the class rooms on the first floor of the High School building, at Yellow Springs, beginning Friday, February 9.

Special subjects of the course will be chosen from the following list: first, a selection representing dramatic literature of the present time, especially the works of Maeterlinck; Stephen Phillips; Rostand, Dr. V. Moody; John Lynge; Bernard Shaw and Eugene O'Neil. These plays will be studied as representative of social conditions and contemporary thought, according to college instructors. The second division will be the poetry of Alfred Tennyson, and Robert Browning, with lectures on the moral and religious teachings of these authors. The third division will be a selection of the more important plays of Shakespeare, King Lear, Othello, Anthony and Cleopatria and Julius Caesar. Patrons will be allowed to choose one of these courses in accordance with the taste of the majority.

The instructor of the course will be Lincoln R. Gibbs, professor of literature, of Antioch College. Before coming to Antioch, Mr. Gibbs, was professor of English at the University of Pittsburgh. He has offered many courses in extension work and was very popular in that field at Pittsburgh.

College credits will be given for the course, the fee for the 20 weeks lectures to be $10.

PORT WILLIAM MAN SUCCUMBS TUESDAY

Jonah Vandervort, 67, prominent farmer of near Port William died Tuesday evening at the Miami Valley hospital in Dayton, following an operation which was performed in the hape that it might prolong his life. His death was due to cancer. He had been a patient at the hospital for the last four weeks.

Mr. Vandervort was born in Clinton County February 10, 1856 and was a member of an old and well known family. All of his married life was spent on the farm near Port William. He was a member of the Christian Church at Bowersvile and was prominent in all of its activities.

He is survived by his wife who was before marriage Miss Rosa Earley, and one daughter, Mrs. Brenda Brann of Wilmington He was a brother-in-law of S. S. Earley of the Wilmington pike and has a number of other relatives in this city and vicinity.

The body of Mr. Vandervort was taken to the home of Mr. and Mrs. Clifford Brann, in Wilmington, where funeral services will be held Friday afternoon at two o'clock.

Burial will be made in the Wilmington Cemetery.

NOW COMES MT. PLEASANT WITH PROTEST

CENTRAL AND LONDON ABOUT TO SPRING AT EACH OTHER

OF CAESARCREEK GAME—EAST HIGH ACTIVE

Mt. Pleasant Enters Protest

Taking issue with the announcement that Caesarcreek High School basketball team had defeated Mt. Pleasant High last Friday night, Mt. Pleasant patrons have entered a protest through this column and claim that Caesarcreek was defeated 24 to 21 in an overtime game.

Caesarcreek originally claimed the victory by a score of 25 to 23, and information for the story originally published of the contest was furnished by a Caesarcreek High youth. In the protest filed by Mt. Pleasant High authorities they claim that the score was 20-20 at the end of the regular time and that Huffman and Shank each scored field goals for their team in the five minutes overtime while the best Caesarcreek could do was a foul shot by Peterson.

The sport columns of this paper are open to clean athletics in the County, but it is not the intention to make them the common ground for an interscholastic controversy, so both claims are printed without comment as to their integrity. The question is probably one for the athletic board of control of the county schools to decide and we suggest that they take steps to avoid future similar occurrences by the appointment of a responsible scorekeeper in each school. Sport Editor.

CENTRAL AND LONDON TO MIX

Sparks will fly when Xenia High basketball team and London High get together on the high school court here Friday evening.

The blue and white pill tossing aggregation has not been hanging up any pink and white cage record for posterity to shoot at this season, which means that the athletes, having struck bottom, are now being primed for the rebound.

It is long worm that has no turning, and supporters of Central High believe that Captain Don Currie and his fellow sufferers will toss a mean come-back into the ring when they assemble with the visiting performers Friday night.

A scoreless tie in football and a defeat in basketball suffered at the hands of the Madison County athletes during the last year, should be enough incentive to make Coach Earl Burgnerh's performers grit their gums and come out of the melee with a victory Friday.

EAST BUSY AGAIN FRIDAY
By WONES.

East High School court athletes will get back into action Friday night when they tackle the Columbus "Hi "Y" team at the East High Gym. East was forced to cancel last week on account of the grip epidemic and it may have been all for the best as it gave the locals another week to prepare for the struggle.

Coach Harris has been drilling his warriors hard all week in order to have them in the pink of condition for the game. He has also given them some new plays which they will work against the visitors. The locals have been practicing with the John Roan Post for the last few evenings and this has helped them considerable. So far the East High lads have only dropped one game and that was to Wendell-Phillips High of Chicago.

The locals will present their same lineup with "Snake" Taylor and "Jew" Porter at the forwards "Beware" Ware at the tip off position, "Snub" Smith and "Sol" Ware at the guards. There will be a preliminary game in which the East High Girls will tangle with the Dayton girls. L Rachford will officiate.

TWO GAMES FOR THURSDAY

The St. Brigid High School five will clash with the St. Mary's Marians of Dayton Thursday at the Rink. This ought to be a good game as both teams have been going at a fast clip all season.

The St. Brigid Juniors will meet the Dayton Merits in the preliminary which will start at 7:30. Both the High School and the Juniors teams are coached by L. Rachford the local referee so the boys know enough about the indoor game. E. Leahey will handle the whistle.

EXPLAINS WATCH TO KIWANIS MEMBERS

The intricate and delicate mechanism of a watch, was interestingly explained to members of the Xenia Kiwanis Club by J. Thornb Charters, jeweler at the meeting and dinner at the Elks' Club Wednesday evening.

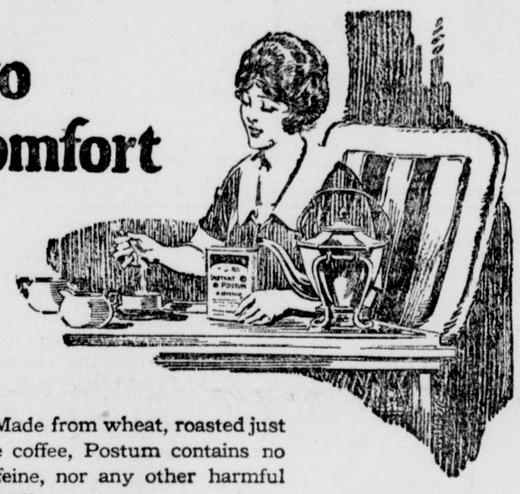

Giving a history of the timepiece, Mr. Charters explained different eras in its construction and development down to the present time, and told members that its delicate construction, illustrating with small watch parts he passed among members.

Mr. Charters and D. D. Jones had charge of the program of the evening and Mr. Jones introduced a departure from the usual manner of giving the weekly attendance prize. Ten members whose names were drawn were required to stand up, while Mr. Jones with a spelling book conducted an old-fashioned spelling bee that furnished much merriment. Wilson Galloway was winner of the prize being the last member of the "spelling class" to remain standing while James Paullin won the "booby prize" for being the first to be spelled down." Good attendance marked the meeting.

MAYOR HARTLEY ILL

Mayor M. J. Hartley, South Detroit Street, was taken to the Espey Hospital, Wednesday evening. Mr. Hartley had been suffering from a second attack of grip, when pneumonia developed. His condition is considered grave.

XENIA TELEPHONE EMPLOYES INVITED TO "FIRST AID" MEET

Employes of the plant department of the Xenia Bell telephone company, will be guests of the Springfield company, at a "first aid" dinner at the Springfield Chamber of Commerce, Friday night. The Springfield, Piqua, and Xenia plant employes will be included in the guests at the banquet.

J. J. McCarthy, Columbus, first aid director for the southern division, will be the principal speaker. J. W. Cherry Columbus, division plant superintendent, also will attend. A special first aid moving picture will precede Mr. McCarthy's address.

The dinner will mark the first steps on the part of the local men to take part in a state-wide first aid competition to be held next spring by the Bell Company. Employes of the plant departments were instructed in first aid last fall at a special school in Dayton. Since that time they have been organized into five teams.

The winning team will complete in a contest at Cleveland to which only division champions are eligible. and the winner of the Cleveland contest will take part in a national competion.

J. E. WADDLE SELLS GROCERY BUSINESS

J. E. Waddle, operator of a grocery and cream business on West Main Street, has sold his business to Walter Hansell well known farmer of northeast of Xenia, who will take possession of the business March first.

Mr. Waddle, who has conducted the grocery and cream business here for the last five years, will retire from business for the present but has not announced his future plans.

Mr. Hansel is planning to hold a sale at his farm February 12, and will move his family to this city about the first of March.

EAGLES STAGING MEMBERSHIP DRIVE

Members of Xenia Aerie, No. 1689, Fraterna Order of Eagles, are starting an intensive membership campaign this week, in the hopes of adding 150 new memers to the lodge roster.

Every member of the organization has been provided with two application blanks and requested to obtain at least one new member for the Lodge, which would run the total membership to 446.

Plans for a complete remodelling of the lodge rooms which will include the enlarging of the club quarters to take in the whole building, will be carried out if the goal of new members is obtained, it is announced. The Lodge now does not occupy the first floor of its building on West Main Street, which is rented out as a store room, but this room will be converted into a lodge room, if the membership of the Aerie is sufficiently enlarged.

The drive will end March 4 at which time members hope to have obtained their goal.

MOTHERS, DO THIS —

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt relief. It does not blister.

As first aid, Musterole is excellent. Thousands of mothers know it. You should keep a jar ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (it may prevent pneumonia). 35c and 65c jars and tubes.

TUNNEL WAREHOUSE AND SIPHON LARGE AMOUNT OF WHISKY

Whisky Thieves Get Away With $240,000 Worth of Stored Liquor

Baltimore, Feb. 8.—Digging a tunnel 150 feet long and three feet wide from a cellar of a house to the warehouse of the Stewart Distilling company's plant at Highlandtown, a suburb, a band of liquor thieves, with the aid of a rubber hose as a "pipe line" and a suction pump siphoned more than 100 barrels of whisky.

The robbery was discovered when police, acting on a tip from an unknown source, forced an entrance into the dwelling. The liquor was valued at upwards of $245,000.

The house, according to police, is owned by Christian Yansen, but as yet no information has been obtained as to where he can be found.

The digging of the tunnel, according to police, must have occupied at least a month, and was supervised by a person of engineering skill, as the walls and ceiling of the passage were properly lined with timber to prevent a possible cave-in. The robbers had cut a hole through a thick stone foundation to gain entrance to the warehouse. The hole, police said, was not more than 12 inches wide, and only a small man could have gained admittance to tap the barrels.

Police officials said the persons connected with the robbery knew the proper "lay out" of the warehouse and that their plans had been worked out possibly months ago. The passage way was dug so that entrance to the plant was made at a far corner of the building, where their activities were shielded by a number of barrels piled there.

WOMEN DEMAND EQUAL RIGHTS

Lansing, Mich., Feb. 8.—Marriage does not deprive the woman of her identity or subject her to the "direction or control" of her husband is the mainspring of the "women's bill of rights" which has been presented to the Michigan state senate. The bill provides that a woman may engage in business without her husband's consent; may establish her residence with or without his consent, and shall have equal guardianship over their children.

WHIPPING FOR SPEERERS

Columbus, Feb. 8.—"There should be a whipping post for some speeders," declared Judge John F. Seidel in municipal court, when he assessed a fine of $25 and costs against an offender and ordered him not to touch a steering wheel for the next 30 days.

GARMENT WORKERS GO OUT ON STRIKE

New York, Feb. 8.—Thirty-five thousand workers in the dress and waist industry were ordered out on strike because of refusal of employers to adopt the week work system to replace the piece work scale, heretofore in effect. Strike orders issued by union leaders directed the workers to march to various halls for meetings to complete strike plans. Union leaders claimed they had a strike fund of $600,000 to finance the walkout.

The strike was preceded by a walkout of 10,000 workers yesterday, including those employed in the bathrobe, house dress, children's wear and kimono shops of New York city.

MOLTEN GLASS EXPLODES.

Toledo, Feb. 8.—The lives of a score of workmen were endangered today when a tank containing 250 tons of molten glass blew up at the Owens bottle plant. The liquid spread all over the floor of the plant, but quick work by firemen, who used water to cool the liquid, prevented loss of life. The property loss is estimated at $25,000.

DESTROYED BY FIRE.

New Albany, Ind., Feb. 8.—Fire of undetermined origin early today destroyed the chain shop of the National Hame and Chain company's plant here with an estimated loss of $100,000.

FAMILY IS NEVER WITHOUT TANLAC

Favorite In Her Home, Says Mrs. Smith, and Never Fails to Give Results

"We are all enthusiastic over Tanlac at our house and just wouldn't be without it," recently said Mrs. E. Smith, of 625 Erie St., Youngstown, Ohio.

"We have used Tanlac in the family for several years, and in every instance the results are always the same.

"For stomach trouble, I don't believe anything in the world equals the medicine, and I know whereof I speak, for it relieved me entirely and gave me such a splendid digestion that nothing disagrees with me now.

"Then, too, for a run-down, weakened condition, the treatment gives better results than anything else I have ever seen. Why, the way it increases the appetite, aids the digestion and builds one up in strength and weight is simply astonishing.

"Besides my own family, I have so many friends and neighbors who speak highly of Tanlac until it would seem that our whole neighborhood is praising it. Tanlac is truly a medicine for all the family."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

MISSIONARY WRITES OF FLOOD CONDITIONS IN INDIA

The Rev. Father Maurice Norckauer, Catholic missionary to Bengal, India, and son of Mr. and Mrs. John F. Norckauer of this city, writes interestingly of flood conditions in Narikelbari, where he is stationed, in a letter published in the Bengalese, organ of the Bengal Missions.

Excerpts follow:

"You cannot imagine what a plight we have been in. The floods have been so widespread that even my own house was flooded. Water was six or eight inches over the board floor. As luck would have it, I had some trees sawed into lumber which I intended to use for tables, benches, etc. But the floods came and so instead of using this lumber for furniture I used it to build a raised platform in my house and another in the cook shed. While the water was high—that is, during two or three months—four or five of us lived up on this little shelf. If we stepped off the platform we were in water; and if we walked in the yard, we were in water up to our knees.

"My house, however, was a paradise compared with the homes of the poor natives Hundreds and hundreds of these poor people had to live and sleep out in open boats, and those who were too pr to own boats had to live like rats in what you might call the 'garrets' of their miserable shacks or out in the open on bamboo platforms

"One afternoon about a month ago, while out in my gondola, I passed the house of one of my parishioners and stopped to inquire how the family was. Their hut stood alone in the midst of rice fields. As I drew closer I noticed by the highwater mark on the side of the house that the flood waters had reached part way up on the roof I ran the nose of my boat into the open doorway and could see no one within. I suspected, however, that some one was there, as I saw a boat moored outside. After calling aloud several times and receiving no response I was about to leave when a tousled head peered out from under the thatched roof and finally the whole family crawled down to receive me. You can imagine what a wretched hole these folks had to live in.

"While the flood was on we were troubled with all kinds of jungle pests. Ants, forced out of the ground by the water, took refuge wherever they coud and nearly ate one alive. Snakes, rats and mosquitoes were everywhere Your American mosquitoes should come over here and take lessons. Even the juveniles over here could beat your full-grown mosquitoes at their own game.

"I am sure that E. Allen Poe could have drawn a few hints for his weird stories had he been here during the flood. But now that the water has been down for a few weeks our past miseries seem like a drawn-out nightmare. Everything is going splendidly at present. The second crop of rice turned out a fifty per cent harvest in my district. The third and last promises to be fair—about a 75 or 80 per cent crop. The first, you will recall, was practically a total failure. You cannot imagine how the poor have suffered during these past four months—and 90 per cent or more of the people are poor.

XENIA TELEPHONE EMPLOYES INVITED TO "FIRST AID" MEET

Employes of the plant department of the Xenia Bell telephone company, will be guests of the Springfield company, at a "first aid" dinner at the Springfield Chamber of Commerce, Friday night. The Springfield, Piqua, and Xenia plant employes will be included in the guests at the banquet.

J. J. McCarthy, Columbus, first aid director for the southern division, will be the principal speaker, J. W. Cherry Columbus, division plant superintendent, also will attend. A special first aid moving picture will precede Mr. McCarthy's address.

The dinner will mark the first steps on the part of the local men to take part in a state-wide first aid competition to be held next spring by the Bell Company. Employes of the plant departments were instructed in first aid last fall at a special school in Dayton. Since that time they have been organized into five teams.

The winning team will complete in a contest at Cleveland to which only division champions are eligible and the winner of the Cleveland contest will take part in a national competion.

J. E. WADDLE SELLS GROCERY BUSINESS

J. E. Waddle, operator of a grocery and cream business on West Main Street, has sold his business to Walter Hansell well known farmer of northeast of Xenia, who will take possession of the business March first.

Mr. Waddle, who has conducted the grocery and cream business here for the last five years, will retire from business for the present but has not announced his future plans.

Mr. Hansel is planning to hold a sale at his farm February 12, and will move his family to this city about the first of March.

BUYS PROPERTY

Charles T Moore has purchased a house and property including 11.1 acres of land on West Second Street and is preparing to remodel the house for occupancy within a short time.

The property is located just outside the corporate limits and is a part of the Carl Wright and Boyd Hopping farm, which was owned recently by Ralph Horney and then sold to A C. Luttrell, who has lived there for the last two years. The deal was completed by W O. Custis, real estate agent.

TUNNEL WAREHOUSE SIPHON LARGE AMOUNT OF WHISKY

Whisky Thieves Get Away With $240,000 Worth of Stored Liquor

Baltimore, Feb. 8.—Digging a tunnel 150 feet long and three feet wide from a cellar of a house to the warehouse of the Stewart Distilling company's plant at Highlandtown, a suburb, a band of liquor thieves, with the aid of a rubber hose as a "pipe line" and a suction pump siphoned more than 100 barrels of whisky.

The robbery was discovered when police, acting on a tip from an unknown source, forced an entrance into the dwelling. The liquor was valued at upwards of $245,000.

The house, according to police, is owned by Christian Yansen, but as yet no information has been obtained as to where he can be found.

The digging of the tunnel, according to police, must have occupied at least a month, and was supervised by a person of engineering skill, as the walls and ceiling of the passage were properly lined with timber to prevent a possible cave-in. The robbers had cut a hole through a thick stone foundation to gain entrance to the warehouse. The hole, police said, was not more than 12 inches wide, and only a small man could have gained admittance to tap the barrels.

Police officials said the persons connected with the robbery knew the proper "lay out" of the warehouse and that their plans had been worked out possibly months ago. The passage way was dug so that entrance to the plant was made at a far corner of the building, where their activities were shielded by a number of barrels piled there.

WOMEN DEMAND EQUAL RIGHTS

Lansing, Mich., Feb. 8.—Marriage does not deprive the woman of her identity or subject her to the "direction or control" of her husband is the mainspring of the "women's bill or rights" which has been presented to the Michigan state senate. The bill provides that a woman may engage in business without her husband's consent; may establish her residence with or without his consent, and shall have equal guardianship over their children.

WHIPPING FOR SPEERERS

Columbus, Feb. 8.—"There should be a whipping post for some speeders," declared Judge John F. Seidel in municipal court, when he assessed a fine of $25 and costs against an offender and ordered him not to touch a steering wheel for the next 30 days.

GARMENT WORKERS GO OUT ON STRIKE

New York, Feb. 8.—Thirty-five thousand workers in the dress and waist industry were ordered out on strike because of refusal of employers to adopt the week work system to replace the piece work scale, heretofore in effect. Strike orders issued by union leaders directed the workers to march to various halls for meetings to complete strike plans. Union leaders claimed they had a strike fund of $600,000 to finance the walkout.

The strike was preceded by a walkout of 10,000 workers yesterday, including those employed in the bathrobe, house dress, children's wear and kimono shops of New York city.

MOLTEN GLASS EXPLODES.

Toledo, Feb. 8.—The lives of a score of workmen were endangered today when a tank containing 250 tons of molten glass blew up at the Owens bottle plant. The liquid spread all over the floor of the plant, but quick work by firemen, who used water to cool the liquid, prevented loss of life. The property loss is estimated at $25,000.

DESTROYED BY FIRE.

New Albany, Ind., Feb. 8.—Fire of undetermined origin early today destroyed the chain shop of the National Hame and Chain company's plant here with an estimated loss of $100,000.

FAMILY IS NEVER WITHOUT TANLAC

Favorite In Her Home, Says Mrs. Smith, and Never Fails to Give Results

"We are all enthusiastic over Tanlac at our house and just wouldn't be without it," recently said Mrs. E. Smith, of 625 Erie St., Youngstown, Ohio.

"We have used Tanlac in the family for several years, and in every instance the results are always the same.

"For stomach trouble, I don't believe anything in the world equals the medicine, and I know whereof I speak, for it relieved me entirely and gave me such a splendid digestion that nothing disagrees with me now.

"Then, too, for a run-down, weakened condition, the treatment gives better results than anything else I have ever seen. Why, the way it increases the appetite, aids the digestion and builds one up in strength and weight is simply astonishing.

"Besides my own family, I have so many friends and neighbors who speak highly of Tanlac until it would seem that our whole neighborhood is praising it. Tanlac is truly a medicine for all the family."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

MISSIONARY WRITES OF FLOOD CONDITIONS IN INDIA

The Rev. Father Maurice Norckauer, Catholic missionary to Bengal, India, and son of Mr. and Mrs. John F. Norckauer of this city, writes interestingly of flood conditions in Narkelbari, where he is stationed, in a letter published in the Bengalese, organ of the Bengal Missions.

Excerpts follow:

"You cannot imagine what a plight we have been in. The floods have been so widespread that even my own house was flooded. Water was six or eight inches over the board floor. As luck would have it, I had some trees sawed into lumber which I intended to use for tables, benches, etc. But the floods came and so instead of using this lumber for furniture I used it to build a raised platform in my house and another in the cook shed. While the water was high—that is, during two or three months—four or five of us lived up on this little shelf. If we stepped off the platform we were in water; and if we walked in the yard, we were in water up to our knees.

"My house, however, was a paradise compared with the homes of the poor natives Hundreds and hundreds of these poor people had to live and sleep out in open boats, and those who were too pr to own boats had to live like rats in what you might call the 'garrets' of their miserable shacks or out in the open on bamboo platforms

"One afternoon about a month ago, while out in my gondola, I passed the house of one of my parishioners and stopped to inquire how the family was. Their hut stood alone in the midst of rice fields. As I drew closer I noticed by the highwater mark on the side of the house that the flood waters had reached part way up on the roof I ran the nose of my boat into the open doorway and could see no one within, I suspected, however, that some one was there, as I saw a boat moored outside. After calling aloud several times and receiving no response I was about to leave when a tousled head peered out from under the thatched roof and finally the whole family crawled down to receive me. You can imagine what a wretched hole these folks had to live in.

"While the flood was on we were troubled with all kinds of jungle pests. Ants, forced out of the ground by the water, took refuge wherever they coud and nearly ate one alive. Snakes, rats and mosquitoes were everywhere Your American mosquitoes should come over here and take lessons. Even the juveniles over here could beat your full-grown mosquitoes at their own game.

"I am sure that E. Allen Poe could have drawn a few hints for his weird stories had he been here during the flood. But now that the water has been down for a few weeks our past miseries seem like a drawn-out nightmare. Everything is going splendidly at present. The second crop of rice turned out a fifty per cent harvest in my district. The third and last promises to be fair—about a 75 or 80 per cent crop. The first, you will recall, was practically a total failure. You cannot imagine how the poor have suffered during these past four months—and 90 per cent or more of the people are poor.

COUNTY AGENT FORD S. PRINCE FAVORS GROWTH OF ALFALFA

By County Agent Ford S. Prince

That alfalfa can be grown profitably on Greene County farms has been demonstrated by dozens of men making the attempt. After men have grown it, they become almost to a man enthusiastic about its use as a hay crop.

Its superiority in the feed lot is borne out by practical tests at nearly all our leading experiment stations.

At the Illinois station a group of cows were divided into two lots. Lot No. 1 was fed nine weeks on alfalfa, and Lot No. 2 on bran. They had other feeds, too, but in similar quantities. The only difference in their ration was that one had alfalfa hay, the other bran.

At the end of the ninth week the feeds were changed—those that had ben fed on bran were changed to alfalfa and those fed on alfalfa were fed the bran ration. The total milk production for the 19 weeks shows a balance of 375 pounds of milk in favor of alfalfa feed. And it costs a great deal less to grow afalfa than to buy bran!

At Nebraska, two lots of steers were fed ,one on alfalfa corn and straw, the other on prairie hay, cottonseed meal, corn and straw.

The first lot gained 2.3 pounds per day, the second 1.9 pounds per day. The profit at end of the 157 days feeding period was $17.50 per steer for the first lot and only $6.90 per steer for the second lot.

At the Kansas Experiment station at weaning time several litters of pigs were separated in two lots. Lot No. 1 was fed in a dry lot on corn alone, with no grass or other feed of any kind. Lot No. 2 was fed on corn and alfalfa pasture for 80 days, then, the pasture being exhausted, they were put in a dry lot and feed on corn and alfalfa hay for 100 days.

Six months later the pigs were killed. Those in Lot, No. 2 averaged 185 pounds each. Those in Lot. No. 1 averaged only 75 pounds.

The corn produced an average daily gain of .14 pounds, or it required 17 3-4 pounds corn for each pound gained. The corn and alfalfa produced an average daily gain of .75 pounds, or it required 5.97 pounds of corn and .12 pounds of hay for each pound gained.

If this experiment had been conducted with home grown hogs the difference would not have been so great because the grown hogs would have used more of the carbohydrates of the corn to lay on fat, but the young pigs could add only a small amount of fat until they had grown a frame on which to put it

Corn is deficient in protein and has an abundance of starch and sugar. Neither alfalfa nor corn, when fed alone will give the best results, but a combination of the two makes a perfectly balanced ration. This experiment shows the need of protein for growing animals.

For hogs the alfalfa may be fed in racks but it is more economical to cut it up by running it through a silage cutter.

One hundred dollars invested in alfalfa hay at current market prices will buy more protein and more carbohydrates than it will in bran, middings, oil meal or any other hay crop or concentrated feed, and it can be grown more cheaply than it can be bought. The moral is we should grow more alfalfa hay in Greene County.

LIQUOR PIRATES LOOT SHIP

New York, Feb. 8.—The British schooner Marion Mosher, alleged rum runner, whose seizure by American dry forces led to international complications, bobbed up again in the news—this time as a victim of rum pirates. The office of the collector of the port received word from Henry S. Culver, American consul at St. John, New Brunswick, that the Mosher had just reached that port with her holds empty. The explanation given by her master, the consul said, was that pirates had robbed his craft on the high seas.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

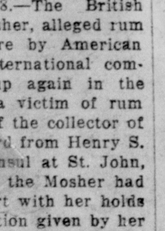

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30c.

Mother-To-Be, Read This—

Here is a wonderful message to all expectant mothers. When the Little One arrives, you can have that moment more free from suffering than you ever have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes.

Note: Write for valuable free illustrated book, "Motherhood and the Baby," containing important authoritative information which every expectant mother should have, and all about "Mother's Friend." to Bradfield Regulator Company, BA-23, Atlanta, Ga. "Mother's Friend" is sold by druggists everywhere.

Styles BY LENORE

No one can accuse these frocks of being the least bit "fussy" The little girl who brings her mother up properly will see to it that all her frocks have this sophisticated simplicity.

Candy pink taffeta with just the suggestion of gold in its sheen is the alluring material which makes the frock with the roller girdle. An unusual soft and rich looking finish is given the skirt by sewing the upturned hem to an inner foundation, avoiding any stitchig on the outside, and allowing the bottom to remain unpressed.

The other frock is made of crepe de chine in a pleasant shade of myrtle green. No mention is given sleeves. The circular cut of the bolice makes that unnecessary. For the waistline two bands of silver ribbon are used. and an adorable touch is added by a small cluster of pink rosebuds at the center.

MURDERER BOUND OVER TO GRAND JURY

Roy Garrison, 35, Dayton, charged with attacking Charles McDonald, 45, Greenfield, Indiana, former O. S. and S. O. Home pupil, with an axe and killing him on the Findley street dump, Dayton, Sunday night, was held to the grand jury without bond.

Garrison waived preliminary examination, when he was arraigned Wednesday in the Dayton police court, charged with the murder.

McDonald's body is being held at the Jackson Undertaking parlors at Dayton, until city officials decide whether they can legally defray the costs of burying him.

TEXT BOOK PRICES ARE GETTING HIGHER

Prices of other commodities are coming down, but the prices of school text books are continuing to climb in Ohio, it has been learned.

Text books publishers are compelled to list their prices in Ohio, with the state department of education, it is explained, and the prices stand for five years before they can be revised. Under the law, boards of education and the publishers must respect those price lists.

During the war, when prices of other commodities soared prices of school text books in Ohio remained stationary, because of the provision that the list prices must remain for five years.

Since the war, the prices are being revised and all the revising is being done upwards to make up for the low prces of the war period.

For the last several years, prices of text books in Ohio have had an upward tendency.

DEBS TO RE-ENTER POLITICS

Cleveland, Feb. 8.—Eugene V. Debs announced here his intention of actively re-entering politics. He also will take the platform in a fight for his doctrines. Debs, five times a candidate for president of the Socialist ticket, was nominated the last time while imprisoned at Atlanta federal prison. He was sent there after trial here in federal court for a speech made at Canton. President Harding freed him.

KELLOGG'S BRAN is a blessing to humanity. It relieves Constipation because it is ALL BRAN!

Kellogg's Bran every day is permanently relieving thousands of constipation sufferers throughout the world. No other food in history has done so much to give back health to men, women and children. IT IS SCIENTIFICALLY PREPARED TO HELP SUFFERING HUMANITY AND IT WILL DO THAT AS NO OTHER FOOD CAN! Physicians universally are indorsing Kellogg's Bran because it acts naturally and positively, and because it frees sufferers from the habit-dangers of drastic cathartics.

Kellogg's Bran has won national recommendation because it is so delicious aside from its regulatory value. Do not confuse Kellogg's with common brans which are unpalatable and hard to swallow. You will relish the nut-like flavor of Kellogg's Bran; it adds greatly to the enjoyment of hot or cold cereals!

Eat Kellogg's as a cereal or sprinkle it over your favorite hot or cold cereal. Another popular way to serve it is to cook it with hot cereals. In preparation, add two tablespoonfuls of bran for each person when the cereal is cooked. You'll like it with hot milk! Kellogg's Bran makes wonderful cookies, raisin bread, pancakes, etc. Recipes on every package.

To win permanent relief it is only necessary to eat Kellogg's Bran regularly and to be certain to eat at least two tablespoonfuls each day; in chronic cases, with each meal.

The relief Kellogg's Bran gives, as a natural bowel agent, is wonderful. Without the slightest distress it sweeps, cleans and purifies, ridding the system of toxic poisons and warding off some of the most terrifying diseases to which human beings are heir.

Don't delay this natural relief; give your family the benefit of this message of health—this great blessing to humanity! Kellogg's Bran is served in individual packages by leading hotels and clubs. Ask for it at your restaurant. All grocers.

ICE SKATING GROWS POPULAR AT KIWANIS CLUB POND THIS WEEK

Time and money contributed by the Xenia Kiwanis Club to provide Xenia ice skaters with a skating pond, was rewarded this week when old man Cold Weather furnished a perfect skating surface for the Kiwanis pond in the Dodds addition, on the site of the old Schmidt ice pond.

Quick to take advantage of the first ice skating that has been provided here for some time, skaters have been flocking to the pond daily and nightly. Owing to the considerable area of the ice, the pond will accommodate many skaters and it is rapidly growing in popularity.

The ice pond idea was the brain child of a Kiwanis Club member, voiced in a meeting some time ago. A committee to carry on the work was appointed and the club went to considerable expense to have the small stream that passes through that section dammed at the culvert entrance to provide the pond. Considerable effort has also been expended in keeping the water dammed and in cleaning out the pond to furnish a smooth surface.

Members, however, felt that they would be disappointed by a lack of freezing weather when the cold weather developed this week. A man employed by the club tested the ice and found it practically all of sufficient thickness to support any number of skaters and permission for the sport was immediately granted. The man retained by the Club is on guard constantly at the pond to warn skaters of thin ice zones and to watch children and skaters are asked to pay ten cents to him for the privilege of skating as long as they desire.

Many skating parties were hastily formed Wednesday to take advantage of the ice skating facilities and more will be held on the pond if the gradually warming weather does not make the ice unsafe. By action of the Kiwanis Club lovers of the sport are enjoying the first ice skating in the city that has been available in years, and former skaters are searching out forgotten and rusty skates and again putting them in service .

It has been my experience that the average person who wishes to give a St Valentine's Party has his or her own ideas concerning how to decorate table and rooms, as well as what to serve for refreshments. But the thing that puzzles, in most cases, is what games to play Try the following:

Where's Your Heart? The players sit in a circle and the first one says to his left hand neighbor: "Where's your heart?" The neihbor replies by saying anything he pleases—such as "My heart is with the stars above." The one who asked him where his heart was, must now reply with a sentence which rhymes such as "It looks as if you were in love." Then the one who said his heart was with the stars, turns to his left hand neighbor and asks "Where's your heart?" etcetera. The more ridiculous the sentences, the better.

Cutting the Heart String: Hang a large red cardboard heart by a string from your chandelier. Blindfold each guest in turn, twirl him around several times, and push him forward to try to cut the heart-string with a large pair of scissors. If one succeeds in doing this before all have had a turn, tie the heart up aain until all haev tried. Then those who have succeeded must play a little rubber game all by themselves to decide the winner. A simple prize might be given for this contest.

Heart Mystery: Each player is asked to hide his eyes while the hostess pins on his back a heart upon which is writted a word suggesting love—such as "Courtship," "Honeymoon," "Marriage," "Solitaire," etcetera. Now each guest ust guess what his "label" is, from the conversation of other guests. For instance the person who is labelled "Solitaire" is asked such questions as: "Did it cost over $100?" "Did it fit her?" or "Did she like it?" As each one gueses correctly he may sit down. The last on the floor is given the booby prize.

Making Valentines: Put glue, cardboard, red crepe paper, white lacy paper, colored crayons, and as many pairs of scissors as there are guests on a table. At a signal all start to make a valentine in five minutes. The pretties result brings a prize.

A PURITAN WIFE

DICK BELDEN . . . . . .
CHAPTER 3

Three more months rolled by and Ann was almost discouraged, yet not one word did she write that might disturb the dear ones at home. She often thought of Dick Belden—he had told her his name and asked hers—and wondered if she would ever see him again.

The strong vitality of the man, his boyish sympathy, his good looks had taken a hold upon her imagination. She would shut her eyes and see him swinging down the street in his free, easy way, see the graceful gesture when he removed his broad-brimmed hat, see his laughing blue eyes and the sun of his hair.

"I'll never see him again, what's the use thinking of him?" she asked herself, but somehow went right on thinking.

Then one day he appeared at the schoolhouse just as the children were trooping out, calling "goodbye, teacher," Ann being a favorite with them all.

"They seem to like you ,"Belden said as he took her hand, nodding toward the fast disappearing group.

"I guess it's because they know I like them," Ann replied smiling.

"Couldn't ask a fellow in to chat a bit?" the man suggested.

"Why, yes—that is, if you don't mind the janitress. She commenced to clean as soon as the children are dismissed."

"Don't mind her a bit! What I do mind is not having a place where we can talk."

Dick followed her into the schoolroom, and they sat side by side on the raised platform upon which stood her desk, while the janitress grumbled under her breath because of the interruption.

For an hour they chatted, mostly of him, his ranch. Then he walked home with her, stopping to rest when he saw she was tiring, accommodating his long strides to her steps, and apologizing when he forgot.

"I am going to be here several days —got business to attend to. Can I walk home with you tomorrow if I get to the schoolhouse in time?"

"I should be very glad to have you —if you will walk a little more slowly," Ann replied laughing.

"I'll try." He laughed too. "But I'm so use to travelling alone that I pace off distance without thinking. You see the ranch is pretty big, and I tend to it myself. It takes some walking to cover the ground."

"She's a bright little thing, so cheerful and gay when she's sick," he muttered as he left her. "Nothing gloomy about her—she's pretty too, and so little." He had the big man's admiration, his feeling of protection, for a tiny woman.

Every day Belden called at the schoolhouse for Ann and several times he took her to ride in a hired motor in the early evening careful not to keep her out late because of the dampness.

The time to return to his ranch was drawing near. When she thought of it Ann wondered how she was to go on without him.

She had given her feeling for him no name, but knew she was happy with him, longed for him when she did not see him.

"I must go back to the ranch tomorrow," he said as they sat on the porch of the boarding house, Ann carefully wrapped in a shawl.

"Will you go with me, Ann? I love you, little girl. Will you marry me? A ranchman with out anything in the world but his ranch and his two hands to work it? Do you care for me, dear?"

"Yes—I think—I know I do!"

"You will marry me?" his voice joyful.

"Yes, when this term is finished."

Belden took Ann into his strong arms, and between confidence such as lovers make he assured her she would soon be well and strong, that he would take such good care of her, that she was sure to love the ranch and so on.

"The house doesn't amount to much but if we have one or two years we can fix it up or build a new one," Dick told her after they settledown to talk of other things than the wonderful love that had come to them.

Hhe left the net day and Ann, happy as she never had been in all peaceful life, wrote home of the great love that had come to her, told them she had given her promise, and described her lover with partial eyes so that John Peabody said:

"He must be a good man, Sarah. Ann would not write like that if he wasn't."

"But it means, John—she will live out there!"

"I know—but the doctor was saying the other day she must try to go where it was warmer as soon as she could.

She wrote him—she promise you know—that she was still coughing. God will take care of her, mother. And of us. He has sent this young man to help us keep her perhaps."

So they comforted each other, and wrote Ann they were happy in her happiness, sending her a small check to help buy what she would need as a bride.

Her salary was pitifully small and she had very little left after paying her board. That they too had little, was not mentioned.

My Dear Professor Marshman:

I need not tell you how cordially I wish you and your associates a most eminent success in carrying out your ambitious program for the further development and expansion of Ohio Wesleyan University.

Coming from a neighboring city as I do, I feel almost a personal interest in the growing fortunes and influence of Ohio Wesleyan. It has always been an Ohio institution in which those of us in neighboring counties felt a very especial pride, and I know something of the splendid contribution which the University has made to men eminent in the professional, religious and political life of the republic.

Fortunately located, with a splendid record already made, I can well believe that the friends of Ohio Wesleyan will take exceptional interest in making an outstanding success of the large program which you have in mind. Please be assured of my more than cordial good wishes.

Very truly yours,

Prof. John T. Marshman,
Ohio Wesleyan University,
Delaware, Ohio.
